MISSION

It is our sincere desire to provide a high quality custom product, to deliver it on schedule, and to price it fairly. These three attributes combined with honesty and genuinely friendly service, are the foundation upon which our company’s operation is based. This allows all parties involved to benefit: our customers, our employees, our suppliers, and Kountry Kraft.

HISTORY

Kountry Kraft, Inc. was founded in April of 1959 by Elvin and Helen Hurst with the support of Elvin’s parents, Reuben and Mary Hurst. In February 2003, the second generation, Elvin Hurst, Jr. and Dolores Hurst-Funk, purchased the Company from their Parents. The experience of growing up with the business has given them unique qualifications and a desire to continue the Family tradition into the future.

The Office and Manufacturing Facility has remained at the same location since its inception, on the Family Farm in the beautiful Pennsylvania Dutch Country in Lebanon County.

Kountry Kraft has experienced steady growth for over 63 years, from a one car garage to the modern 96,000 square foot facility of today. The factory is now tooled with some of the latest equipment including computerized panel saws, dovetailing machines, pneumatic assembly systems, and the latest in high-quality finishing equipment. The office systems have also progressed to the latest computer systems for efficiency and accuracy in order processing, design and accounting.

To you, however, one of the most valuable assets of Kountry Kraft is its people. Our staff of over 125 dedicated and hardworking employees are ready to continue their legacy of service.

We welcome you to join our ever-growing family of quality dealers and look forward to serving you.

I. LIFETIME LIMITED WARRANTY

Kountry Kraft, Inc. proudly warrants its manufactured product to be free from defects in materials and workmanship under normal home use and care for as long as the original purchaser owns the product and the product is at the original site of installation. Our obligation under this warranty shall be limited to the repair or exchange of any part or parts which may prove defective under normal home use and care during this period. This warranty is not extended to replacement of component parts. The purchaser is advised, however, that component parts manufactured by others may have their own warranties.

This limited warranty does not cover defects caused by improper storage, installation, misuse or neglect. Nor does it cover any expense involved in removing, shipping and reinstalling any items or products. This warranty applies only to defects and does not apply to the natural aging or mellowing of wood and wood finishes, nor to normal wear and tear.

Kountry Kraft, Inc. reserves the option of approving field repair or returning the cabinets or component to the factory for correction.

In the event of dispute between parties, claims relating to this warranty can be litigated only in the Court of Common Pleas of Lebanon County, Pennsylvania.

We exclude and are not responsible for any consequential damages nor for any incidental damages arising out of this breach of any expressed, written, or implied warranty which relates to our products. Some states do not allow the exclusion or limitation of incidental or consequential damages so the above limitation or exclusion may not apply to you.

We will not assume, nor authorize any person to assume for us any liability in connection with the sale of Kountry Kraft, Inc. products. This warranty is in lieu of all other warranties expressed or implied. To obtain performance under this warranty you must contact the authorized Kountry Kraft, Inc. Retail Dealer from whom you purchased the cabinets and report the defects claimed in writing. If the retail dealer is unavailable, then report to Kountry Kraft, Inc. directly.

(A) Dealer Responsibilities:

A dealer representative must be present at time of delivery to inspect merchandise, sign receiving slip, and assist in checking all items against the loading document as they are unloaded from the truck. All damage and/or shortages must be noted on a return / missing items form (see freight policy page II~7). Damage claims will be challenged if no notes are made at time of delivery.

(B) Field Repair:

Minor shipping damage or small defects can be most efficiently repaired in the field. When such situations arise, you must receive advanced authorization in order to be compensated for the costs incurred. Kountry Kraft reserves the right to approve a field repair or arrange for the return of the item to our factory to be repaired or replaced. You may be required to return defective items to the factory before they will be replaced, as is the case for all defective doors. Doors must be returned so that we are better able to match color, grain, and other details. If it is determined by Kountry Kraft to leave a defective item at the job site until a replacement is made, you must return that part within 30 days after replacement to receive credit.

(C) Field Adjustment:

Dealer’s installer is expected to do minor touch up and adjustment of all doors and drawers after installation. Customer warranty claims must be investigated by the dealer and replacement parts installed as required.

(D) Warped Door Policy:

Experience has shown that some doors may warp slightly in high moisture variations after installation; especially with new construction. In older homes warpage might occur from very low humidity. In many situations the door will return to its normal flat position after going through four (4) complete seasonal changes. Please give the above serious consideration, because quick replacement may not be any better. Also, make sure the door is warped rather than the cabinet racked; remove the door and its hardware and place it on a flat surface. The door must be warped at least 1/4” before replacement is required. It is often a better solution to adjust hinges or install a more powerful catch to hold the doors straight. The original door must be returned to Kountry Kraft prior to replacement.

II. REPLACEMENT PARTS AND SMALL ORDERS

Kountry Kraft’s policy is to produce replacement parts, additional parts, and rush items within seven (7) working days (plus shipping time). Please take extra care with your original order to help prevent these costly small orders. We will continue to refine our system in our on going effort to deliver all orders in a complete and accurate state. Small order charges can be avoided by; (1) Ordering extra lengths of mouldings with original order (a major cause of small orders), (2) Checking your paperwork and our confirmations thoroughly, (3) Grouping your small orders together. All small orders (Less than \$2500.00 list) will incur a small order charge of \$250.00 list. Kountry Kraft will only provide replacement parts for existing Kountry Kraft cabinetry. We will not accept orders to replace parts on other manufactures product.

III. REFINISHING

Kountry Kraft does not offer a refinishing service for parts subject to wear and tear or physical damage. However we may be able to refinish parts for up to one year from the original delivery date. Contact Kountry Kraft to determine whether or not your item can be refinished.

IV. CHANGE ORDERS

It is important to understand that when a custom order is placed there are over 100 people involved in filling your request. It is imperative that everyone knows exactly what you need. Orders must be clearly written and confirmations checked thoroughly and quickly. We allow two (2) working days (48 hours) after a confirmation is faxed to review and make corrections. If corrections or approval of confirmation is not received at Kountry Kraft during this time period the order will be put on hold and **delivery will be delayed**. Remember, this time period is to confirm that your order has been processed as ordered, it is not meant to be a time for changes. If excessive changes are made it will be considered a “change order”. The minimum change order charge is \$250.00 list plus the costs of material and/or labor involved (including office time). After the signed confirmation approval is received at Kountry Kraft orders are put into production and changes are no longer practical; additional items will be made at dealer’s expense.

IV. PAYMENT TERMS

Each dealer is required to have a current credit application and a uniform sales and use tax certification on file at Kountry Kraft even if open account status is not requested. It is required that these applications be accompanied by a personal warranty by the owner.

Our terms of payment are 4% cash discount for full payment on delivery or net 25 days if you have an open account. Be aware that this generous cash discount is strictly Full Payment on delivery; no credit cards, no post dated checks or checks in the mail. Orders must be over \$1000 net to be eligible for the cash discount. To qualify for this cash discount, your account must have a zero balance. In the event that your account is past due 25 days or more, all deliveries will be C.O.D. Failure to pay upon delivery when required or having checks returned for insufficient funds will cause your account to become “certified check on delivery.”

New dealer accounts with credit not yet approved will be required to supply a 50% deposit with order and the balance upon delivery.

V. PRODUCT AND SPECIFICATION CHANGES

Due to Kountry Kraft’s commitment to provide a high quality product at a competitive price, and the sometimes volatile raw materials market, we reserve the right to change materials, design specifications, and prices without prior notice. General overall price increases, however, will receive 30 days notice. All information contained herein is thought to be accurate at time of printing, however, no responsibility is assumed by Kountry Kraft. All pictures and graphics are for visual representation only. This publication supersedes all previous technical, policy, and price data.

VI. CANCELLATION CHARGE

Any order cancelled after it has been processed is subject to the terms of the Cancellation Policy. The fee will be charged one hundred percent (100%) of all costs for materials received or ordered and fifteen percent (15%) of the total list price including all premiums.

VII. CO-OP PROGRAM

Kountry Kraft’s Advertising Co-Op Program awards dealerships Advertising Rebate Dollars based on qualified billings for the calendar year. Qualified billings do not include delivery, taxes, samples or displays of any type and accounts must be current to participate. Billings of \$100,000 - \$499,999.99 will receive one and a half percent (1.5%) Advertising Rebate Dollars. Billings over \$500,000.00 and over will receive two percent (2%) Advertising Rebate Dollars. (First year dealers billing \$65,000.00-\$99,000.00 will earn one percent (1%) Advertising Rebate Dollars.)

Available for three years, Advertising Rebate Dollars can be used for displays, samples, advertising, brochures, booth space at dealerships’ local shows, AdvanceWare and photography of Kountry Kraft product with permission/rights for Kountry Kraft use. Any balance not used at the end of three years will be forfeited.

Contact your Kountry Kraft Representative for details.

VIII. DISPLAY PROGRAMS

Showroom Displays and Sales Aids

All Kountry Kraft dealers are required to maintain current samples to adequately promote the products. All sales aids are provided to the dealer at half the cost of production. We offer generous discounts for displays, and we encourage exhibiting a full line of accessories because you will sell what you show.

Price is \$500 net per year paid directly to Advanceware unlimited users per company. Purchase price is eligible for Co-op reimbursement. Price is for software, Kountry Kraft catalog download is available at no additional cost.	

KOUNTRY KRAFT

EXCELLENCE IN CUSTOM-MADE CABINETRY SINCE 1959

All orders must be written on a Kountry Kraft order form or be produced by a computer program which includes all the information specified on our order form. An accurate floorplan drawing with the cabinet sizes and numbers noted on the floorplan is required. A detailed drawing of any item that is not exactly as shown in catalog is required. Other drawings may also be included, but are not required. Remember, make sure all drawings match. Incomplete or inaccurate orders can not be processed. Production and/or delivery can not be scheduled until all information is complete. Processing incomplete orders unfairly penalizes those who submit complete orders.

Kountry Kraft accepts orders by E-mail (orders@kountrykraft.com) and does not require a hard copy to be mailed. Please do not mail and E-mail orders, because it is sometimes difficult to determine which is most recent. A return faxed acknowledgment of your order will be sent within two days giving the following information:

- (1) Order number to be used with any future correspondence.
- (2) Approximate delivery date (if order is complete).
- (3) A list of any missing information. Missing information must be completed and received by date requested to keep order on schedule.

Remember, incomplete orders cannot be processed, scheduled for production, or have delivery dates set.

Kountry Kraft will not accept small orders by phone. Verbal orders are too often misunderstood. Reference to a written order is important if questions arise. The cost of any item is too great to have it produced incorrectly. If the need to discuss the details of an order arise, please do call, but then submit the order via E-mail. It will be quickly confirmed with all details and the cost.

Complete orders will receive a complete confirmation by E-Mail. Please read it carefully and E-mail back any corrections. You are allowed 48 hours (2 business days) after confirmation is sent to review and make corrections. If corrections or approval of confirmation is not received at Kountry Kraft during this time period the order will be put on hold and **delivery will be delayed**. Remember, this time period is to confirm that your order has been processed as ordered, it is not meant to be a time for changes. If excessive changes are made it will be considered a "change order". The minimum change order charge is \$250.00 list plus the costs of material and/or labor involved (including office time). After the confirmation is approved orders are put into production and changes are no longer practical; additional items will be made at dealer's expense.

COMMENTS / DELIVERY DIRECTIONS: (36)

Any unfilled section constitutes an "incomplete" order that cannot be processed.

(1) Page Number ____ of ____; number the pages in order so that if any pages get separated we will be aware that some are missing.

(2) Dealer Name, Address, and Phone Numbers.

(3) Dealer's purchase order number if applicable.

(4) The date which you write the order.

(5) Ship to: provide some kind of name identification. Purchase order numbers and/or job numbers are useful in their place, but hard to remember.

(6) Delivery address: If to your showroom or warehouse, write SAME, otherwise provide delivery directions and detailed map.

(7) Phone: Provide job site phone number if possible. This can be extremely useful when scheduling must be changed and driver needs to notify you.

ORDER WRITING TUTORIAL

Most important rule for writing an order - **Do not leave any blanks**
Even if it does not apply, write N/A or draw a line through it.

KOUNTRY KRAFT

EXCELLENCE IN CUSTOM-MADE CABINETRY SINCE 1959

(8) Requested Delivery Date: Your weekly notice will tell you what week to expect; if you need a quicker delivery write in that week. We will confirm if that delivery week is possible.

Likewise, if you do not need delivery as soon as the standard week, let us know. Storage charges may apply if you are not ready for delivery upon completion of your order. (See page II~7)

(9) Cabinet Line: Check box for cabinet construction.

(10) Check door type boxes above if applicable; Lipped (LP), Quarter Overlay (Q/O), Full Overlay (F/O) or Inset.

(11) Upper Cabinet Door Style: Style name for wall cabinets and on taller top doors.

(12) Base Cabinet Door Style: Style name for base cabinets and lower taller doors.

(13) Door Thickness: Check box for door thickness. (3/4" or 1")

(14) Door Raise: You must specify door raise when applicable. See section III for door raise options that are available for particular doors.

(15) Framing Bead: You must specify the type of framing bead if applicable. See section III for options.

(16) Door Lip: You must specify door edge lip. See section III for lip options that are available for particular doors.

(17) Drawer Style: You must specify drawer style here. See section III for options available.

(18) Deep Drawer Style: Specify here if deep drawers are different than shallow drawers.

(19) Wood Species: Indicate type of wood desired. See section III for available woods.

(20) Stain Color: Give stain color or write N/A for not applicable or draw a line through the blank.

If a stain match, write " match " here and supply sample at least 3 weeks in advance of order.

(21) Paint Color: If one of the standard paint colors, give the name of color. If color is not standard a paint match must be ordered at least 3 weeks in advance of kitchen order. If nonstandard give a name and number from the Kountry Kraft paint color fan or write "match" and supply a sample.

(22) Special Finish: This space for indicating finishes other than standard stain or paint.

(23) Sheen Type: Check box for degree of sheen requested. Standard sheens are shown in section III.

(24) Door Hardware: Indicate by number exactly as shown in section XIII. If you don't have a selection, write "none". You may also indicate to drill only, but give clear instructions.

(25) Door Hardware Location: Write "STD" if standard or clearly indicate otherwise. If you do not fill in this space, "standard" location will be used. A detailed drawing must be supplied if location is anything other than standard.

(26) Drawer Hardware: Indicate by number, or as you did for door hardware selection.

(27) Drawer Hardware Location: Write "STD" if standard location, or clearly indicate otherwise.

If you do not fill in this space, the “standard” location will be used.

(28) Hinge Type: See section XII for hinges and their applications. In many cases, the application and door lip will dictate which hinge must be used and in such cases "STD" will suffice in this blank. If any variations (such as finish colors) are available, you must indicate your choice.

(29) Toe Kick: Indicate stained, painted (include paint color) or none. This selection will be added to your order if not listed with accessories.

(30) Drawer Construction: Wood dovetailed drawers are now standard on all cabinet line. "STD" will suffice in this blank.

(31) Drawer Guides: Blum Tandem full extension guides are standard on all cabinet lines. Specify as "STD" or if Accuride full extension guides are desired specify as "ACCURIDE".

(32) Kountry Kraft Order Number: Use this space to write a corresponding kitchen order number if this order relates to a previous order.

(33) Cabinet Laminate: Indicate laminate brand, color, and number if applicable.

(34) Door Laminate: Indicate laminate brand, color, and number if applicable and if different from cabinet. If no laminate selection is listed, door will be made in all wood.

(35) Counter Laminate: Indicate laminate brand, color, and number or write NONE in space.

(36) Comments and/or Delivery Directions: This space for any general notes or information about this order. Also use this space for delivery directions.

Remember blank spaces mean incomplete orders.

If more space is needed, use description area at the beginning of the order.

KOUNTRY KRAFT

Most important rule for writing an order - **Do not leave any blanks**
Even if it does not apply, write N/A or draw a line through it.

INDIVIDUAL ITEMS WRITE UP

EXCELLENCE IN CUSTOM-MADE CABINETRY SINCE 1959

ITEM #	QUAN.	DESCRIPTION	DOORS	DRWS	FINISH SIDES	SHLVs.	HINGING	UNIT	PRICE
(37)	(38)	(39)	(40)	(41)	(42)	(43)	(44)		
1	1	B1D18	1	1	L	-	R	1460	1460
		(45) POWBAD						672	672
		DLCWS						701	701
2	1	W30 36	2	-	R	2	LR	1635	1635
3	1	TS18 90 24	2 1/2	-	-	6	R	3534	3534

(37) Item Number: Number cabinets on floorplan and/or elevations in a clockwise rotation around the room. Do base or wall cabinets first around the room in sequence, and then do the other in the same sequence. This is easy to follow and by doing so you will have less chance of missing an item. Establish a routine and do it the same every time. It is important that you skip two lines between items.

(38) Quantity: If more than one item, make sure that they are all exactly alike in every detail. Otherwise, list separately.

(39) Description: Use item abbreviation and/or written description. Be sure to put any prefix "before" the abbreviation and suffix directly after or on next line.

(40) Door Count: Used to help quantify doors for door style premiums if applicable. Do not forget to consider "oversize" doors as 1-1/2 doors. (2 premiums if double panel doors)

(41) Drawer Count: Used to help quantify drawers for drawer style premiums if applicable.

(42) Finished Sides: Indicate left (L), and/or right (R).

(43) Hinging: Indicate left (L), right (R), etc. Be sure to read left to right facing the cabinet.

(44) Shelves: List the quantity of shelves for each cabinet.

(45) List all modifications, options, or special notes directly under the cabinet to which they apply and use a separate line for each. For any special item not exactly as in catalog, write the note "SEE DETAIL" and include on a separate sheet a complete, detailed drawing of how you want the item built. Imagine that you were building the cabinet; is there enough information?

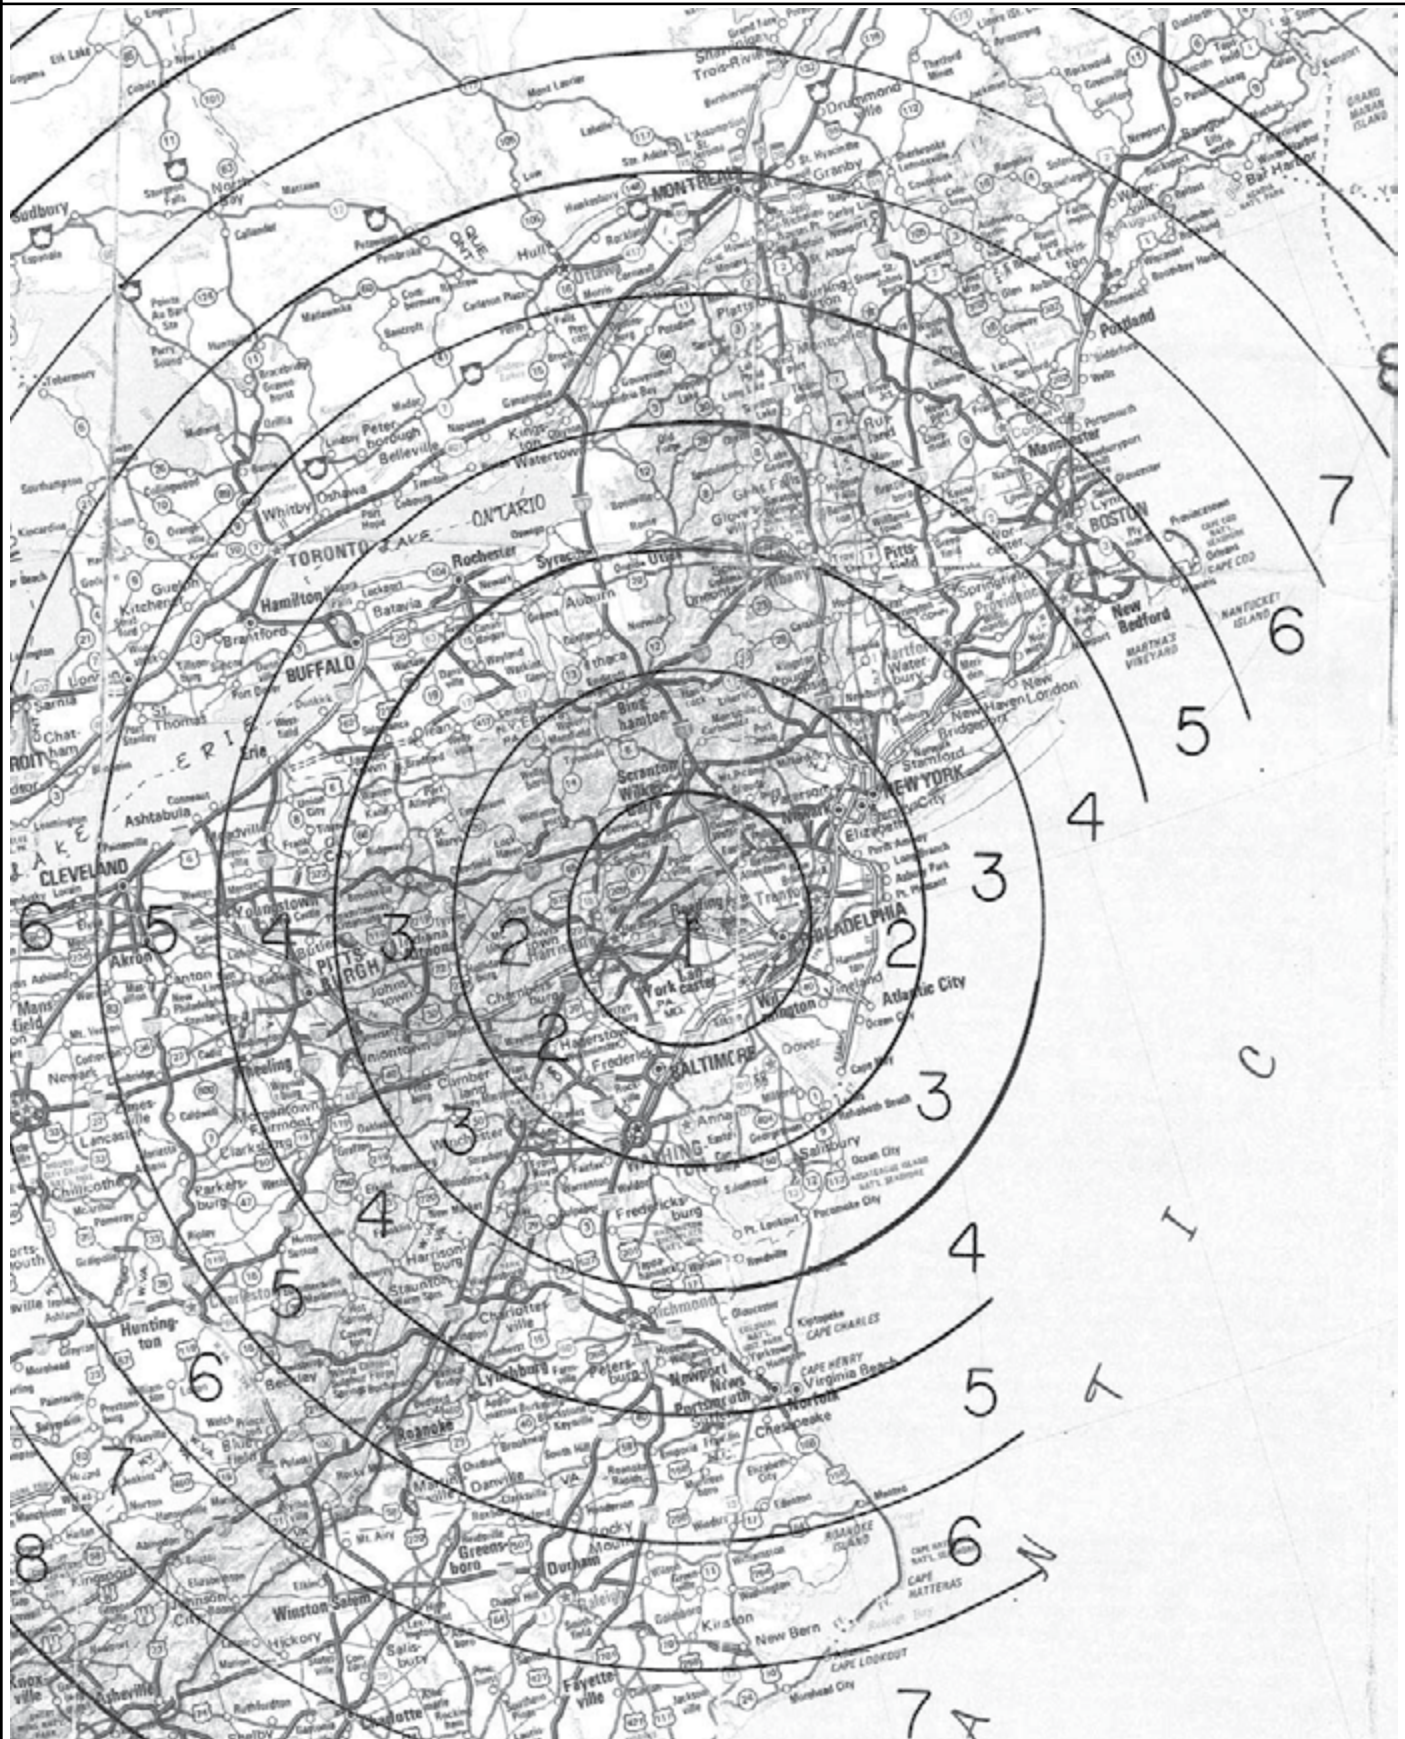

PRICING YOUR ORDER

(1) Itemize the list price of each cabinet, modification, option, and accessory in the column at right of page.	Example:
(2) Subtotal the list after the last item.	Sublist_____ \$8530.00
(3) Add up the door quantity and multiply by the door style premium.	20 CRP10 doors @ \$165_____ \$3300.00
(4) Add up the drawer quantity and multiply by the drawer style premium.	10 Keystone drawers @ \$70_____ \$700.00
(5) Add wood premium if applicable. (This premium is added to entire kitchen and door styles)	Wood Premium @ 10%_____ \$1253.00
(6) Add any special finish premiums if applicable. (This premium is added to entire kitchen and door styles)	Finish Premium @ 10%_____ \$1253.00
(7) Add premium hardware if applicable.	Hardware Premium 30 @ \$5_____ \$150.00
	Total List =_____ \$15186.00

FREIGHT PROGRAM

- (A) Freight Rate is determined by multiplying your freight rate times the basic net price, do not include door styles, special finishes, wood species premiums, or hardware.
Example: (sublist) \$8530.00 x discount factor x freight rate = (net freight cost)
- (B) Drop Fee: a drop fee will be applied to any order consisting of less than eleven cabinets. This fee is in addition to your normal freight cost. Note: the drop fee is determined by cabinet count only, moldings, panels and other items are not included in the count.
East of the Mississippi (except New York City) on orders with less than eleven cabinets__ \$206.00 net
New York City and West of the Mississippi, on orders with less than eleven cabinets_____ \$340.00 net
- (C) Dock Fee: A dock fee will be applied to all orders that are "picked up" as follows...
- | | |
|-------------------------------------|--------------|
| Orders up to \$1000.00 net_____ | No Charge |
| \$1,000.01 to \$10,000.00 net_____ | \$150.00 net |
| \$10,000.01 to \$20,000.00 net_____ | \$250.00 net |
| \$20,000.01 net and over_____ | \$325.00 net |
- (D) Additional Parts Orders:
Parts orders made for jobs that were originally "picked up" by the customer will be charged a \$300.00 net fee to be shipped by truck.
- (E) Cabinetry is blanket wrapped and unwrapped at the tailgate so that you can inspect them carefully. Paper wrapping of cabinets is available: add 3% to sublist. Job site deliveries require the following information:
- 1) Customer name and full address.
 - 2) Dealer telephone number and delivery site telephone number, if available.
 - 3) Maps. When drawing maps, keep in mind that these trucks require 14' clearance at underpasses, are not allowed on parkways, and need a large turning radius. Drivers will not make deliveries where conditions are not safe and/or property or truck damage may result.

- (F) Delivery Date/Time:
Your confirmations will give you a tentative delivery week. The day of that week will vary depending upon your location and the quantity of kitchens that must be delivered in your area. Occasionally, it is impossible to make delivery on the confirmation tentative date, but delayed orders will get priority shipping the following week.
You will receive a more accurate delivery date and time of day the week prior to delivery. Our trucks are equipped with phones, and drivers will attempt to contact you with any delivery changes.
- (G) Handling Fee:
A notice will be sent prior to loading your cabinetry on a delivery truck. Any changes to the delivery schedule must be made within 48 hours of this notice. Changes made after 48 hours will be subject to a handling fee of \$100.00 net per hour for any labor incurred.
- (H) Storage Charges:
If delivery can not be taken in confirmation week, we will reschedule only if at least one week's notice has been given. If delay is more than 2 weeks, a storage charge of 1% of the net cost will apply for the first month, an additional 1% will be added for each subsequent month.
- (I) Check Off and Inspection:
Dealer is to be responsible to check off items as they are unloaded, sign receiving slip, and inspect items for any damage, defects, or shortages. When trucks are loaded at factory, every item is inspected, checked off and a back order written for shortages. Any discrepancies discovered at delivery must be noted on a return / missing items form.
- (J) Unreasonable Delays or Unloading Time:
Drivers are not authorized or expected to unload trucks beyond the tailgate. At least one adult is required to take delivery from the truck. This person must be capable and willing to handle bulky and heavy cabinets. Freight rates are based on unloading approximately 20 cabinets per hour. If insufficient help or unreasonable unloading time is taken, a charge of \$100.00 net per hour, per man may be applied. This charge will also apply if no one is on site to take delivery and driver has to wait.
- (K) C.O.D. Policy:
When payment on delivery is required or you decide to take advantage of our generous cash discount (see policy page I~14), please respect the driver's safety and do not pay in cash. When C.O.D. is required, you must provide the check before the driver is authorized to unload.
- (L) United Parcel Service (UPS):
Open and inspect any shipment received via UPS prior to the departure of the delivery person. Claims for UPS delivery damage will not be honored by UPS or Kountry Kraft unless they are made in the presence of the delivery person and noted on the bill of lading. If you receive damaged items from UPS, please notify the UPS claims department immediately and keep the package in which material was shipped in order to expedite your damage claim. UPS weight limit is 150 lbs., size limit is 130 inches (length + girth). Maximum length is 109 inches. Large items that cannot be shipped UPS will require shipment via Kountry Kraft or a common carrier. All shipments other than those via Kountry Kraft trucks will be subject to a minimum handling charge in addition to any UPS, mail, or other miscellaneous freight charges.
- (M) Inside Delivery is available upon request. Contact Cupboard Wagon @ (717) 866-7550 for a quote on a per job basis. The additional **Inside Delivery** fee will be billed by and paid to Cupboard Wagon. The Curbside Delivery portion of the delivery fee will be billed by and paid to Kountry Kraft)

RAUVISIO & NOIR
DOOR & DRAWER STYLES

KOUNTRY KRAFT
EXCELLENCE IN CUSTOM-MADE CABINETRY SINCE 1959

FULL OVERLAY (-F/O);
ANY DOOR MORE THAN 36" HIGH OR 24" WIDE IS CONSIDERED OVERSIZE AND WILL BE PRICED PER THE CHART BELOW.

USE THIS CHART TO CALCULATE QUANTITY OF DOOR STYLE PREMIUMS		HEIGHT				
		36"	54"	72"	90"	108"
DOOR SIZE UP TO	24"	1	1.5	2	2.5	3
	36"	1.5	2.5	3	4	4.5
	48"	2	3.5	4	5.5	6
NOTE: DRAWERS OVER 6 15/16" HIGH ARE PRICED AS (1) DOOR STYLE						

RAUVISIO & FENIX MATERIALS ARE NOT AVAILABLE AS FINISHED ENDS ON CABINETS. IF EXPOSED ENDS ARE TO MATCH AN ADDITIONAL DOOR OR END PANEL MUST BE ATTACHED. USE THE CHART ABOVE TO CALCULATE THE QUANTITY OF ADDITIONAL DOORS TO PRICE, AND ALSO THE NUMBER OF DOOR STYLE PREMIUMS.
EXAMPLE - NOIR ADDITIONAL DOOR 24" X 54" = \$250 (MAD) + \$190 (NOIR PREMIUM) X 1.5 = \$660 LIST.

THIS PAGE INTENTIONALLY LEFT BLANK

- (1) WARPAGE POLICY:**
FRAMED DOORS LESS THAN 26” WIDE AND 48” HIGH CARRY A GUARANTEE AGAINST WARPAGE OF MORE THAN 1/8”. ANY FRAME TYPE DOOR UP TO 26” WIDE AND LESS THAN 83 15/16” HIGH REQUIRES MULTIPLE PANELS, AND CARRY A GUARANTEE AGAINST WARPAGE OF MORE THAN 5/16”. ANY FRAMED DOOR EXCEEDING 26” WIDE OR 83 15/16” HIGH WILL NOT BE WARRANTED. IN ACCORDANCE WITH OUR GUARANTEE MAXIMUMS ANY FRAME TYPE DOOR OVER 26” WIDE OR 48” HIGH WILL AUTOMATICALLY BE MADE A “TWO PANEL” DOOR UNLESS SPECIFIED AS “SINGLE PANEL” BY THE CUSTOMER, IN WHICH CASE THERE WILL BE NO GUARANTEE.
ONE PIECE DOORS OR ONE PIECE DOORS WITH APPLIED MOLDING UP TO 12” WIDE AND 21 15/16” HIGH CARRY A GUARANTEE AGAINST WARPAGE OF MORE THAN 1/8”. ANY ONE PIECE DOOR OR ONE PIECE DOOR WITH APPLIED MOLDING FROM 12 1/16 TO 26” WIDE OR FROM 22” TO 57” HIGH CARRY A GUARANTEE AGAINST WARPAGE OF MORE THAN 1/4”. ANY ONE PIECE DOOR OR ONE PIECE DOOR WITH APPLIED MOLDING EXCEEDING 26” WIDE OR 57” HIGH WILL NOT BE WARRANTED.
- (2) OVERSIZE DOORS:** ANY DOOR OVER 24” WIDE OR 36” HIGH IS CONSIDERED OVERSIZE AND IS PRICED AT AN ADDITIONAL 50% PREMIUM.
EXAMPLE: IF STANDARD DOORSTYLE = \$100 - OVERSIZED = \$150.
IF A DOOR HAS TWO PANELS CHARGE TWO FULL DOORSTYLE PREMIUMS.
EXAMPLE: IF STANDARD DOORSTYLE = \$100 - TWO PANEL = \$200.
- (3) UNDERSIZE DOORS:** WHEN A DOOR IS SMALLER THAN THE MINIMUM SIZE ALLOWABLE THE DOOR WILL BE MADE AND PRICED AS A DRAWER FRONT.
- (4) BUTT DOORS:** A PAIR OF LEFT & RIGHT HINGED DOORS WITH NO CENTER FRAME DIVIDER. 1/8” WIDE GAP IS STANDARD. IF BUTT DOORS ARE REQUIRED YOU MUST SPECIFY, IF NOT SPECIFIED 2 DOOR CABINETS WILL BE MADE WITH A CENTER STILE.
BUTT DOORS ARE STANDARD IN THE FOLLOWING SITUATIONS:
1) ALL FRAMELESS 2 DOOR CABINETS. (FRAMELESS CABINETS WIDER THAN 36” HAVE A CENTER PARTITION BEHIND THE DOORS)
2) PENNLINE 2 DOOR CABINETS WITH FULL OVERLAY DOORS.
3) ALL OVEN TALLERS.
4) ALL SINK AND VANITY BASE CABINETS UP TO 36” WIDE.
- (5) WOOD STILE** ATTACHED TO THE LEFT DOOR TO SIMULATE A CENTER STILE BETWEEN A PAIR OF BUTT DOORS - ADD \$160.
- (6) SLIDING GLASS DOORS:** \$100 PER SQUARE FOOT PLUS STAINED INTERIOR (15% PREMIUM) IF REQUIRED.
- (7) SLIDING WOOD DOORS:** ADD \$200 PER DOOR. 3/4” THICK DOORS ONLY. (ADD DOORSTYLE PREMIUM IF APPLICABLE)
- (8) LOCK** ON DOOR OR DRAWER \$160. (NATIONAL LOCK #8053)
- (9) 170 DEGREE** OPENING HINGE FOR FRAMELESS CABINETS ADD \$15 PER HINGE. (BLUM 170)
- (10) CONCEALED HINGE** FOR PENNLINE INSET CABINETS ADD \$15 PER HINGE. (BLUM 71B)
- (11) PIANO OR SOSS** HINGE INSTALLED ON DOOR ADD \$200. (PREMIUM NOT NECESSARY FOR PIANO HINGE ON STANDARD CORNER BI-FOLD CABINETS)
- (12) TOUCH LATCH** INSTALLED ON DOOR ADD \$100.
- (13) BEADED OPENINGS** (WITHOUT DOOR OR DRAWER) ADD \$125. NOTE: FOR INSET BEAD ON SHAPED EDGES ADD AN ADDITIONAL \$250.
- (14) LID STAYS** FOR DOORS HINGED AT TOP, ADD \$175 PER DOOR. MINIMUM CABINET OPENING HEIGHT IS 8”. (BLUM AVENTOS HK-XS)
- (15) TWO KNOBS OR PULLS** PER DRAWER ADD \$21 PLUS THE HARDWARE PREMIUM IF APPLICABLE. HARDWARE WILL BE 6” FROM ENDS UNLESS SPECIFIED OTHERWISE. THE EXCEPTION IS WHEN TWO NARROWER EQUAL WIDTH DRAWERS ARE ABOVE OR BELOW A WIDE DRAWER THAT IS GETTING THE TWO KNOBS OR PULLS... IN THIS CASE THE LOCATION WILL ALIGN WITH THE CENTER OF THE NARROWER DRAWERS.
- (16) NONSTANDARD WIDTH FRAMING.** AVAILABLE ON MORTISE AND TENON CONSTRUCTED DOOR STYLES ONLY. (THIS PREMIUM DOES NOT APPLY TO WAINSCOT PANELS) ADD THESE PREMIUMS TO THE DOOR STYLE PREMIUM:
1) NONSTANDARD FRAMING FROM 1 1/2” TO 6 7/16” ADD \$25 PER DOOR.
\$65 PER DOOR FOR PRESIDENTIAL, MADISON, CRP10751M&T & SAVANNAH MMT
2) NONSTANDARD FRAMING FROM 6 1/2” TO 8 3/4” ADD \$100 PER DOOR.
\$140 PER DOOR FOR PRESIDENTIAL, MADISON & CRP10751M&T & SAVANNAH MMT
3) NONSTANDARD FRAMING FROM 8 13/16” AND OVER BY QUOTE.
- (17) DOGLEG DOOR** ADD \$495 PLUS (2) DOORSTYLE PREMIUMS.
- (18) OPEN THE DOOR MAGNETS** ARE AVAILABLE WHEN USING **FREE SWINGING HINGES ONLY**. PRICE IS \$83 PER DOOR.
- (19) HYBRID DOORS** ARE A FIVE PIECE CONSTRUCTION WITH SOLID STOCK FRAMING AND RAW MDF CENTER PANELS. HYBRID CONSTRUCTION IS STANDARD WHEN USING PAINTED OR PAINT WITH GLAZE FINISHES AS PANELS WILL NOT EXPAND OR CONTRACT AND WILL NOT SHOW STAVE LINES AFTER FINISHING. HYBRID PRODUCTS ARE PRICED USING THE CORRESPONDING DOORSTYLE PREMIUMS.

III-64 <small>2/23</small>	WOOD SPECIES AND PREMIUMS	KOUNTRY KRAFT <small>EXCELLENCE IN CUSTOM-MADE CABINETRY SINCE 1959</small>
The beauty of all natural wood is in its variation of color and grain and the fact that every piece is different. These variations & individual characteristics are not to be misconstrued as defects. Kountry Kraft is a high quality full custom manufacturer and uses all furniture grade solid woods and veneers. To maintain a very competitive price point in the marketplace, we do not as a standard use “premium” grade solid wood doors. Premium grade woods will have less sap marks, pin burls or knots, and less variation in color because it is selected more tediously. However since each board is unique there will still be variations in color and appearance between pieces. Premium grade (solid stock) doors are available in red oak, cherry, hard maple walnut & white oak at an additional 7% premium (standard premium + 7%)		
	WOOD SPECIE	PREMIUM
	Red Oak has a very strong open grain pattern that varies from straight to wild patterns. Color will vary from light to medium brown, often with a reddish cast. Some pin burls, dark mineral streaks, and/or white sapwood may occur, especially in machined areas.	Standard
	White Oak has a very strong open grain pattern that varies from straight to wild patterns. Color will vary drastically from pale brown to dark brown in color with a greenish gray tinge. Some pin burls, dark mineral streaks, and/or white sapwood may occur.	15%
	Quarter Sawn White Oak has very straight grain with a relatively pourous open texture. Distinctive ray and fleck patterns may be present. Color will vary drastically from pale brown to dark brown with a greenish gray tinge. Some pin burls, dark mineral streaks, and/or white sapwood may occur. Not available in 1” thickness.	20%
	Rift White Oak has the same characteristics as Quarter Sawn White Oak but will have less of the ray & fleck patterns. Not available in 1” thickness.	30%
	Distressed Knotty Pine is a rustic moderately soft closed grain wood that is yellowish creamy white in color and is accented with knots. Sound red or black knots, split knots and possible mineral streaks enhance the rustic beauty of this wood.	Standard
	Cherry is an attractive closed grain wood that is reddish in color. Sapwood can be light brown to white and may show up most often on machined area of door. Dark mineral streaks and pin burls are a normal characteristic of this beautiful wood.	10%
	Rustic Cherry has the same characteristics as cherry but has more sapwood (whitewood), more mineral streaks and pin burls, and has varying sized knots. It is available on solid wood door styles only.	8%
	Hard Maple is off white to light brown in color. Moderately matched blending color and grain. Allows curly grain, sugar streaks, and occasional mineral and pin knots.	12%
	Paint Grade Hard Maple is used for solid coverage paint & two coat paint w/ glaze finishes, not for stain finishes. The characteristics are the same as hard maple but the material is not selected for color.	Standard
	Hickory is a beautiful open grained rustic hardwood. The array of colors will vary from a near white to light brown to dark brown. May have pecks, burls, and mineral streaks.	5%
	Walnut is a closed grain wood commonly known as American black walnut. Color will vary from off white, to light grey-brown, to a deep rich chocolate brown. Streaky color, curly grain, mineral streaks and pin knots are to be expected.	22%
	Alder is a relatively soft hardwood with fairly straight grain. Porous end grain on panel raises and edges is to be expected. It is a light brown color with a yellow or reddish tinge.	7%
	Rustic Alder has the same characteristics as alder but has knots of all sizes and types. Knots will commonly have cracks and/or holes. It is available on solid wood door styles only.	5%

Sheen & Gloss Information: A surfaces light reflection is often described by sheen or gloss. Sheen and Gloss reflectivity are based on a scale of 0 (no reflection) to 100 (mirror like). Sheen is the measurement of light reflection at an 85 degree angle, Gloss is measured at a 60 degree angle. For a given color a higher sheen/gloss will generally make the color appear brighter and lighter, whereas a lower sheen/gloss will generally make the color appear muted and or darker.				
Approximate Sheen/Gloss Levels:				
	Sheen	Gloss		
Matte	5-20	<15		
Low	20-35	15-30		
Mid	35-55	30-45		
(1) Natural Finishes: Clear sealer and high solids conversion varnish only-no stain. Note: A Natural Finish Agreement must be included with your order--we can not process your order without it. Forms are available or make copies of the agreement on page III~68.				No Charge
(2) Standard Stain Finishes (Sheen will be as listed unless noted otherwise):				
Butternut Low	Fog Five Matte	Otter Matte		
Carob Low	Fog Seven Matte	Otter Five Matte		
Carob Five Matte	Gray Wolf Matte	Otter Seven Matte		
Carob Seven Matte	Gray Wolf Five Matte	Silver Fox Matte		
Cashew Low	Gray Wolf Seven Matte	Silver Fox Five Matte		
English Walnut Matte	Mink Matte	Silver Fox Seven Matte		
English Walnut Five Matte	Mink Five Matte	Spice Low		
English Walnut Seven Matte	Mink Seven Matte	Stratus Matte		
Fog Matte	Natural Low			
(2A) Premium Stain Finishes (Sheen will be as listed unless noted otherwise):				
Delta Matte	Nightfall Matte	White Toner Matte		5%
Graphite Matte				15%
(3) Special Stain Matches: Stain matches require 7 working days to complete. We must have a sample at least 4” x 6” to match. The order cannot be considered complete until the stain match is approved. *There will be no charge to match existing Kountry Kraft product for up to two years from original ship date. After two years the standard match fees will apply.*				\$1800
(4) Standard Paint Finishes: Cabinet exteriors and interiors are painted. Drawer boxes, shelves and accessories will be finished natural. Open and glass door cabinets will have painted shelves. Note: A Painted Finish Agreement must be included with your order-we can not process your order without it. Forms are available or make copies of the agreement on page III~69.				
Standard Paint Colors and available Sheens:				
All White Low	Dover White Low	Pilgrim White Low

Weathered Grain: Material is randomly removed from the face & edges of door and drawer fronts. Weathering Process will be done on the faces & edges only, not on the Frame Beads. Available only with Square or Regular frame beads, Reverse G-Cove or P057 Raises, and L149 or Machine Edges. Cabinet parts will be wire brushed. Available on Alder, Rustic Alder, Cherry, Rustic Cherry, Knotty Pine, Hickory, Red Oak, Quarter Sawn White Oak, Rift White Oak, White Oak, and Walnut only.				15%	
(17) Special Plastic laminate colors: For matte finish colors other than the standard 949 white or 920 almond add to entire kitchen				5%	
(18) Gloss or Polished finish plastic laminate				10%	

NATURAL FINISH AGREEMENT

Dear Prospective Kountry Kraft Customer,

We are indeed pleased with your desire to purchase a Kountry Kraft kitchen in a natural finish. While natural finishes produce a truly beautiful product, they are quite different from other stained cabinet finishes you might be familiar with. Because we desire satisfied customers, we want to be sure you fully understand the nature of these differences.

It is important to realize the following. The beauty of clear finished cabinetry really comes from the true natural qualities of wood itself. Kountry Kraft utilizes only select solid hardwoods and hardwood veneers. Natural wood, though, varies in color from shades of white, red, brown, black, and even green in areas. Mineral streaks may be visible where parts of the tree absorbed minerals differently in one area than another. Grain and apparent texture will vary from “even” to absolutely “wild”. These variations will be present throughout your kitchen. They will occur on adjacent cabinets, between doors and/or drawers on the same cabinet, and even within the same panel.

We call your attention to these characteristics of natural finishes because the effect of these variations in an entire kitchen may be different from what you visualize now in viewing a smaller display or finish sample. The variations are broad; but, they are the beauty of natural wood. We mention these conditions because neither Kountry Kraft nor Kountry Kraft’s dealer can be responsible for the type of, or degree of variations you may actually experience in your kitchen.

Accordingly, Kountry Kraft will only accept orders for natural cabinets accompanied with the customers signature on this letter of agreement.

I have read and understand this agreement. The characteristics of natural cabinet finishes and the situations described above are acceptable to me, and as such, I agree not to hold Kountry Kraft or their dealer responsible for such, if they occur in my kitchen.

PAINT FINISH AGREEMENT

Dear Prospective Kountry Kraft Customer,

Since its inception in 1959 Kountry Kraft has been striving to provide the finest and most innovative cabinetry available. The current trend towards painted finishes has opened up a whole new realm of beauty in wooden cabinets. To help you understand the natural characteristics of painted wood, please read the following statement carefully.

We use only select hardwoods and hardwood veneers in our cabinetry. However, wood by nature expands and contracts with the change of relative humidity. Because of this, hairline cracks may appear where two pieces of wood are mitered or joined together.

We use only the finest Hi-Solid Pigmented Varnish, which cures to a durable, chemical and water resistant finish. The pigmented varnish covers the natural grains of hardwood, the grain texture may be somewhat visible in certain lighting conditions.

Sometimes it can appear that certain areas are lighter or darker on the same job. This is due to surfaces being on different light planes, perpendicular to each other, at angles to each other or can be caused by lighting variations on the cabinets.

Accordingly, Kountry Kraft will only accept orders for painted cabinets accompanied with the customers signature on this letter of agreement.

I have read and understand this agreement. The characteristics of natural cabinet finishes and the situations described above are acceptable to me, and as such, I agree not to hold Kountry Kraft or their dealer responsible for such, if they occur in my kitchen.

Metal Fusion is a finishing process developed to take wood products used often in kitchen designs, and apply a metal coating to replicate the look of metal at a lower price point. Metal Fusion combines real pulverized metal particles with a special resin. Together a coating is formed that replicates the look of real metal when applied to traditional wood products. Lighter in weight and lower in price than metal, this finishing process offers affordable options for dramatic accents and focal points throughout the home. With many solid metal characteristics this metalized application is available in 8 Metals and 3 Finish Treatments. The Metal coating will react to the environment, just as solid metal does, and will naturally patina overtime, thus enhancing the beauty of the piece. This process is not available on Styrofoam or Silicone products.

What Metals are available?

Currently 8 Metals are available:

Group 1: Brass, Bronze and Copper

Group 2: White Gold, Oil Rubbed Bronze, Iron, Nickel Silver, and Stainless.

What Treatments are available?

1. Satin Patina-Treatment “A” - the lowest cost treatment consists of the metal surface being applied, sanded, and a Patina applied.

2. Polished-Treatment “B” - the metal surface is applied and goes through an extensive sanding process starting with a low grit paper, and progressively moving to finer grit papers. After all imperfections are removed the surface is buffed to a glass like appearance. The polished treatment is available only on flat surfaces. On products such as corbels, posts and decorative onlays, a Patina must be applied to give the appearance of tarnishing and enhance the recessed areas that cannot be polished.

3. Polished Patina-Treatment “B” - as in the polished treatment the metal surface is applied and goes through an extensive sanding process starting with a low grit paper, and progressively moving to finer grit papers. At this point a patina is applied to give the natural appearance of patina seen on many metals. Then the raised surfaces are buffed leaving the patina in recessed surfaces (this look is very similar to glazed products produced by Kountry Kraft).

Can I get any treatments on any type of products? NO, the polished treatment is only available on flat surfaces. Any product such as corbels, posts and decorative onlays cannot have a polished finish only applied; there is no way that these products can be 100% polished. The patina must be added to enhance recessed areas our technicians cannot polish.

How do I clean this Product? The surface can be wiped with a damp cloth. Follow the Basic Care Tips provided with Kountry Kraft product.

Can it be touched up if damaged? As for most products finished today, touch up can be a real challenge.

A painted or paint glazed cabinet that has been damaged, can have paint (glaze) applied, but in most cases it will be visible. This product is no different. If the product does get damaged, or if your installer just wants to hide nail holes from installation several options are available.

1. We can provide a small portion of metal that can be combined with a clear enamel nail polish and applied to surface.

2. Use a matching seam fill available for laminate repair.

Sample Boards are available, price is \$620 list.

STAINLESS STEEL HOOD LINERS

CODE	PENN	3001	2001
------	------	------	------

STAINLESS STEEL HOOD LINERS ARE AVAILABLE; CHECK YOUR LOCAL CODES TO SEE IF A STAINLESS STEEL LINER IS REQUIRED. BECAUSE OF THE MANY DIFFERENT SIZES AND ANGLES, PRICES WILL BE GIVEN ON A PER HOOD BASIS. KOUNTRY KRAFT WILL QUOTE FOR YOU IF WE HAVE THE EXACT SPECIFICATIONS REQUIRED FOR THE WOOD HOOD. LIST PRICES VARY FROM APPROXIMATELY \$1500 - \$3050. IF A STAINLESS STEEL LINER IS REQUIRED, IT MUST BE ORDERED ALONG WITH THE WOOD HOOD. LINERS ARE CUSTOM FITTED AND CANNOT BE SUPPLIED AFTER THE WOOD HOOD HAS BEEN DELIVERED.

Technical drawing of a rectangular frame assembly. The overall height is labeled as 18-24 inches. The overall length is labeled as 60-96 inches. The frame consists of a top rail, a bottom rail, and two vertical stiles. The top rail has a height of 3 inches. The bottom rail has a height of 4 inches. The two vertical stiles have a width of 3 1/2 inches each. The distance between the stiles is 3 inches.

RAUVISIO INCLUDES THE BRILLIANT & TERRA MATERIALS.
RAUVISIO PREMIUM INCLUDES THE NOIR & CRYSTAL MATERIALS.
SEE DOOR SECTION FOR LISTS OF AVAILABLE COLORS.

WIDE TOP RAIL

OVERALL CABINET HEIGHT DOES NOT CHANGE WITH THIS MODIFICATION.
TOP FLOOR IS HELD FLUSH WITH THE TOP OF THE CABINET. RAIL IS MOUNTED IN FRONT OF FLOOR & BETWEEN SIDES.
DOORS WILL BE MADE SHORTER BY WHATEVER AMOUNT THE TOP RAIL IS INCREASED.
SPECIFY RAIL WIDTH.

CODE	2001
RWTR	264

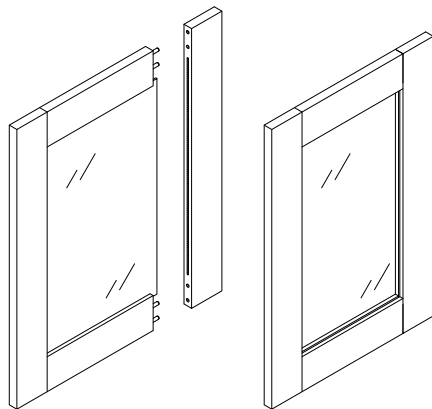

WIDE BOTTOM RAIL

OVERALL CABINET HEIGHT DOES NOT CHANGE WITH THIS MODIFICATION.
BOTTOM FLOOR IS HELD FLUSH WITH THE TOP OF THE RAIL. RAIL IS MOUNTED IN FRONT OF FLOOR & BETWEEN SIDES.
DOOR HEIGHT WILL NOT BE CHANGED UNLESS SPECIFIED OTHERWISE.
SPECIFY RAIL WIDTH.

CODE	2001
RWBR	264

CLEAR GLASS DOOR

CONSTRUCTION: 4 PIECE FRAME W/ 3" STILES & RAILS. SEAMS WILL BE NOTICEABLE AT JOINTS.
GLASS IS ENCASED IN THE FRAME AND CAN NOT BE REMOVED.
MINIMUM SIZE: 8" X 8"
OVERSIZE CHARGES APPLY. SEE CHART IN DOOR SECTION III.

CODE	2001
RCG	462

EDGEBOARDING

LOOSE EDGEBOARDING: EDGEBOARDING IS SENT LOOSE FOR APPLICATION BY CUSTOMER.
APPLIED EDGEBOARDING: EDGEBOARDING IS APPLIED AT THE FACTORY.

(1) TABLE OF FRACTION/DECIMAL EQUATIONS

$1/32 = 0.03125$	$9/32 = 0.28125$	$17/32 = 0.53125$	$25/32 = 0.78125$
$1/16 = 0.0625$	$5/16 = 0.3125$	$9/16 = 0.5625$	$13/16 = 0.8125$
$3/32 = 0.09375$	$11/32 = 0.34375$	$19/32 = 0.59375$	$27/32 = 0.84375$
$1/8 = 0.125$	$3/8 = 0.375$	$5/8 = 0.625$	$7/8 = 0.875$
$5/32 = 0.15625$	$13/32 = 0.40625$	$21/32 = 0.65625$	$29/32 = 0.90625$
$3/16 = 0.1875$	$7/16 = 0.4375$	$11/16 = 0.6875$	$15/16 = 0.9375$
$7/32 = 0.21875$	$15/32 = 0.46875$	$23/32 = 0.71875$	$31/32 = 0.96875$
$1/4 = 0.25$	$1/2 = 0.5$	$3/4 = 0.75$	

(2) METRIC CONVERSION CHART (LINEAR MEASUREMENTS):

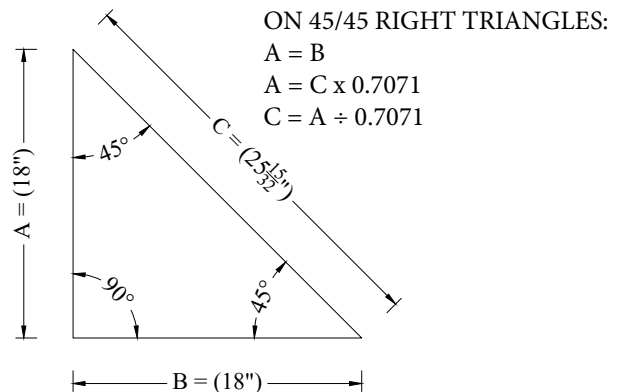

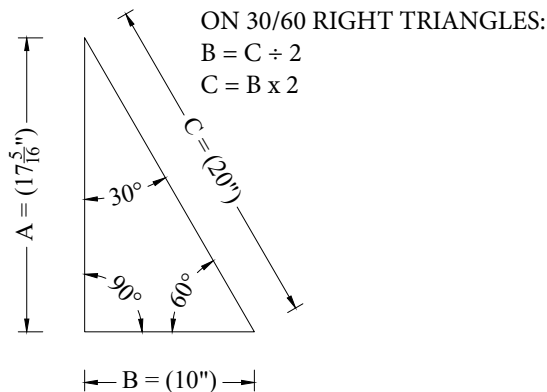

MILLIMETER (MM) = 0.03937"	1" = 25.4 MM	12" = 304.8 MM
CENTIMETER (CM) = 0.3937"	1" = 2.54 CM	12" = 30.48 CM
METER (M) = 39.37"	1" = 0.0254 M	12" = 0.3048 M

EXAMPLE: TO CONVERT 304.8 MM TO INCHES, DIVIDE BY 25.4 = 12"

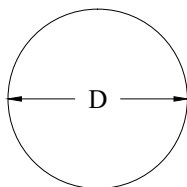

(3) RIGHT TRIANGLES

ANY TRIANGLE WITH A 90 DEGREE CORNER IS CALLED A RIGHT TRIANGLE. ON RIGHT TRIANGLES, THE SHORT SIDES ARE LABELED "A" AND "B"; THE LONG SIDE IS "C".

ON ALL RIGHT TRIANGLES $A^2 + B^2 = C^2$

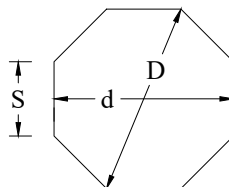

(4) CIRCLES

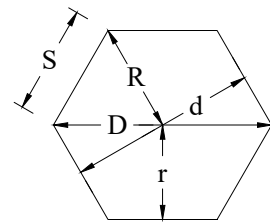

$\text{Pi } \pi = 3.143$
 $\text{CIRCUMFERENCE} = D \times \pi$
 $D = \text{CIRCUMFERENCE} \div \pi$

(5) OCTAGONS

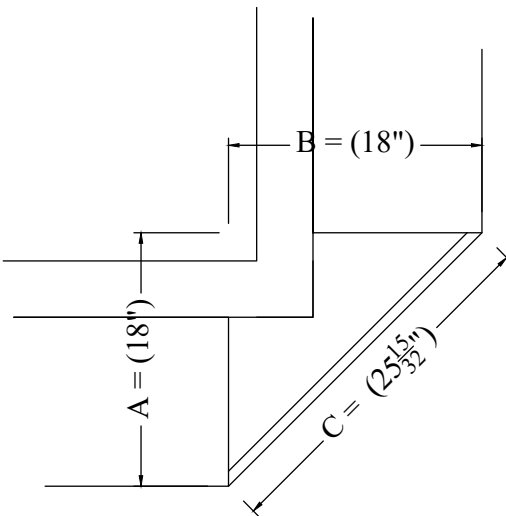

$D = S \times 2.613$
 $d = S \times 2.414$
 $S = D \div 2.613 \text{ OR } d \div 2.414$

(6) HEXAGONS

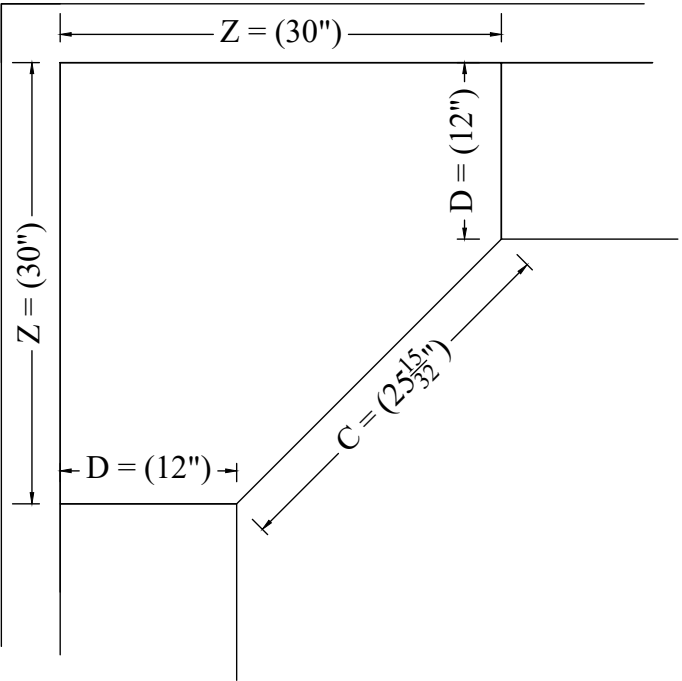

$S = R$
 $D = S \times 2$
 $d = S \times 1.732$
 $S = r \times 1.155$

OUTSIDE CORNER FORMULA

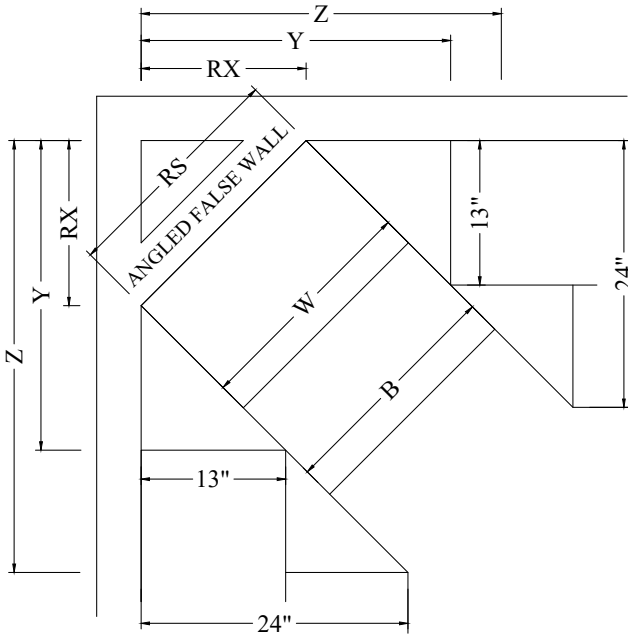

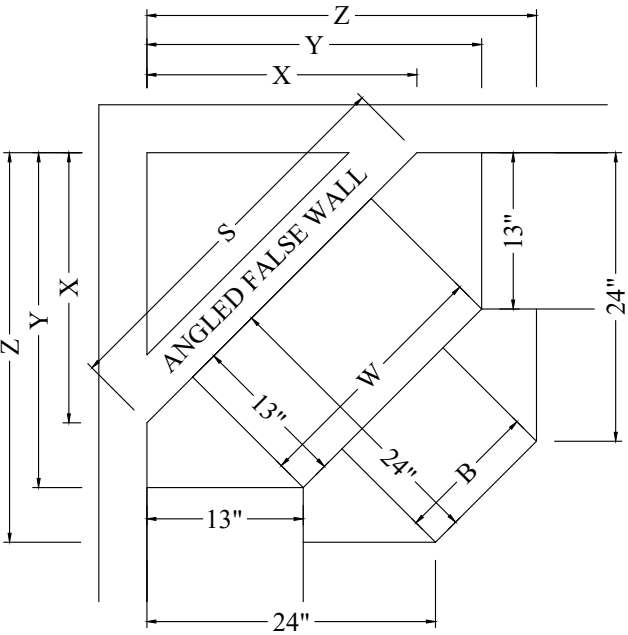

A = B
A = C X 0.7071
C = A ÷ 0.7071

NOTE:
THESE FORMULAS ONLY
WORK FOR 45° ANGLES

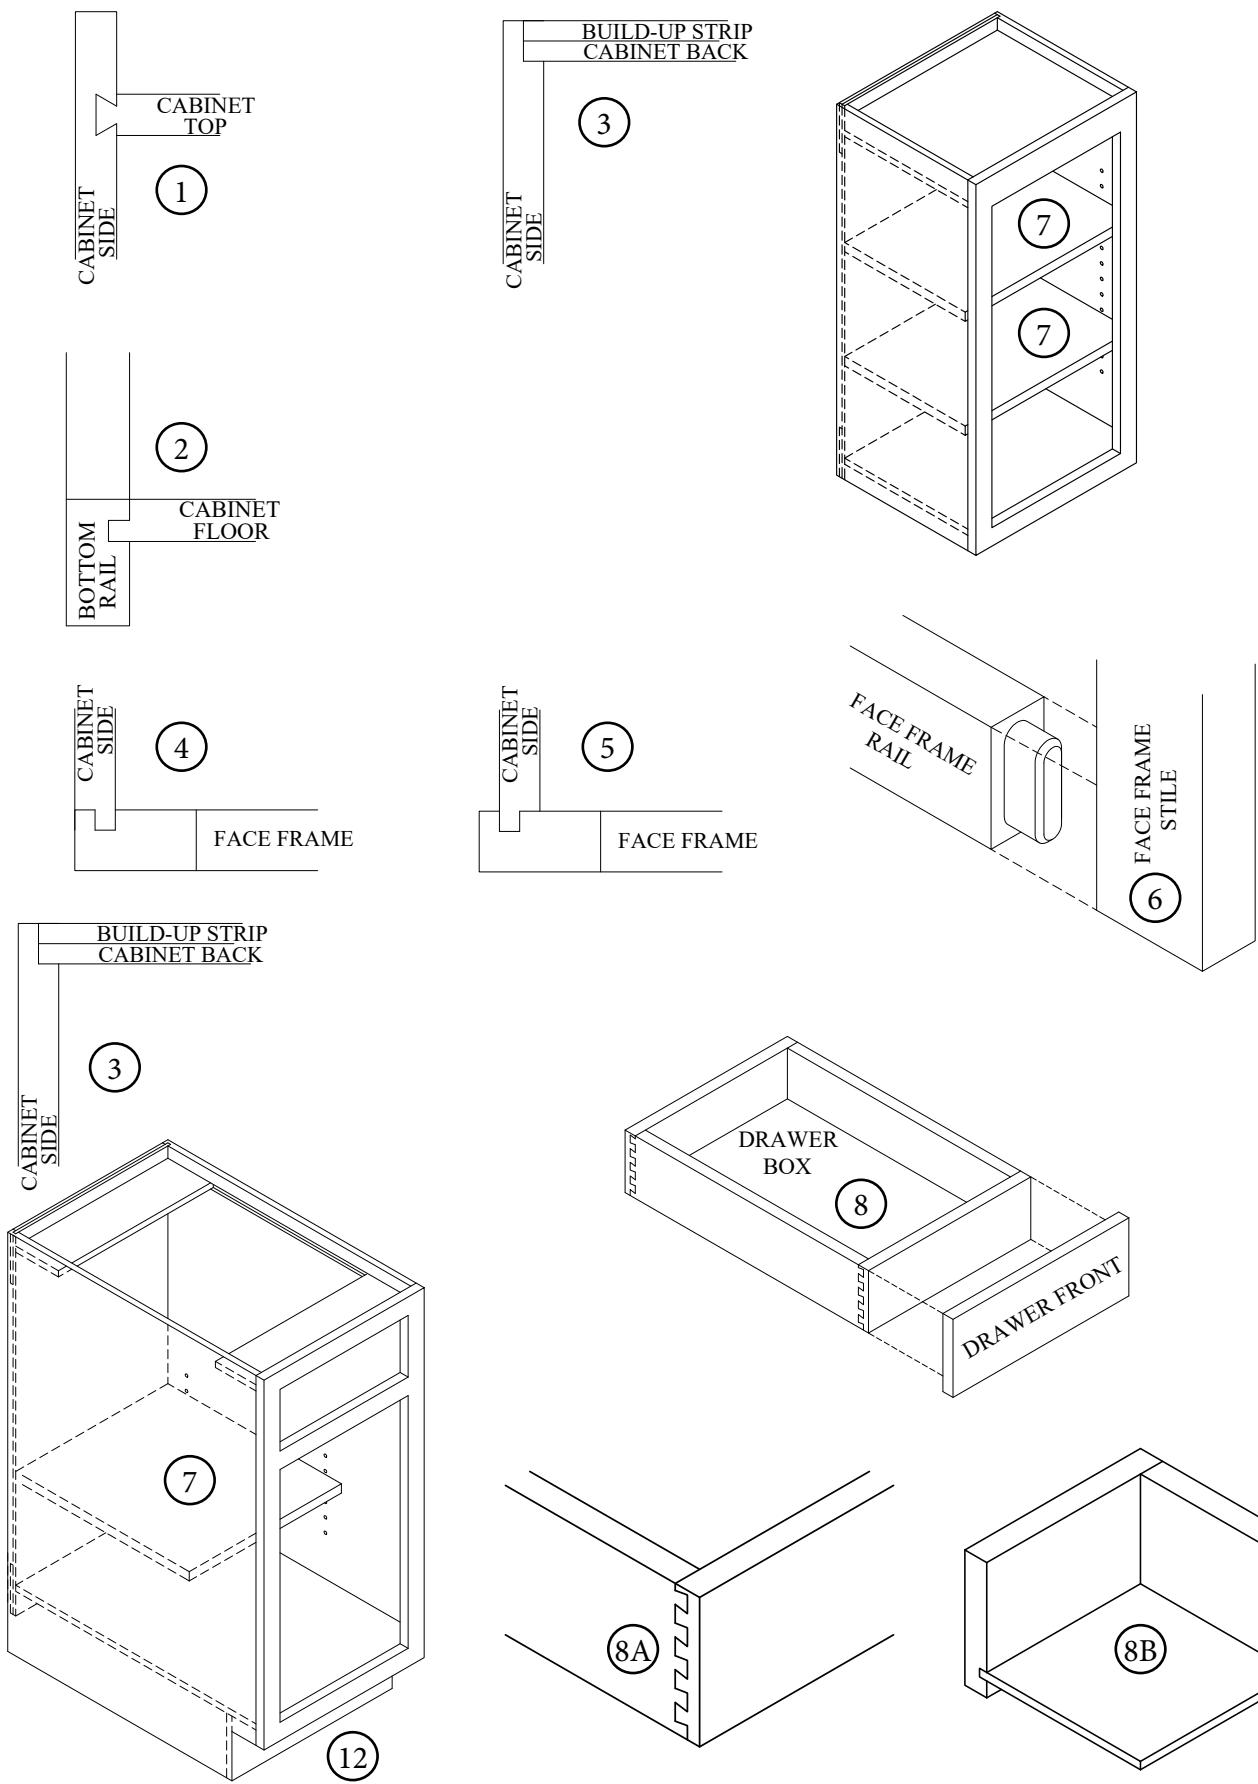

INSIDE CORNER FORMULA

C = (Z - D) ÷ 0.7071
D = Z - (C X 0.7071)
Z = D + (C X 0.7071)

BASE CABINET		WALL CABINET		FALSE WALL		FALSE WALL WITH RECESSED CABINETS

42"	53-3/4"	51"	49-1/8"	62-3/4"	43-5/8"	51"	36-1/8"
45"	55-7/8"	54"	51-1/8"	64-3/4"	45-3/4"	54"	38-1/8"
48"	58"	57"	53-1/4"	67-3/4"	47-7/8"	57"	40-1/4"

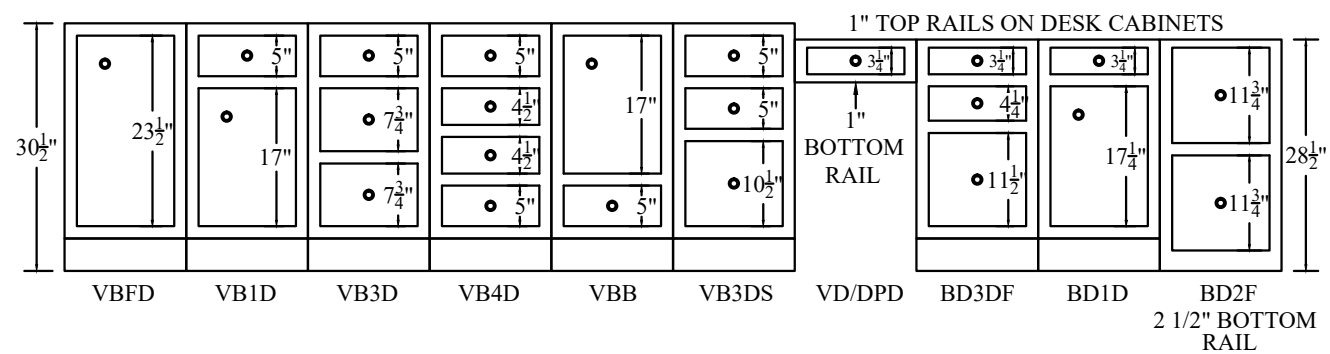

TO CALCULATE SIZES NOT SHOWN ON THIS CHART, SEE OPPOSITE PAGE FOR FORMULAS.
TO CALULATE SIZES OF CABINETS WHEN USING **ZERO FILLERS**, USE FORMULAS LISTED BELOW;
Z = (.7071 X B) + DEPTH OF BASE CABINET (INCLUDING DOOR THICKNESS + 5/16").
EXAMPLE: .7071 X 30" = 21.21 + 24 13/16" = 46.0225 OR 46"
Y = (.7071 X W) + DEPTH OF WALL CABINET (INCLUDING DOOR THICKNESS + 5/16").
EXAMPLE: .7071 X 30" = 21.21 + 14 1/16" = 35.2725 OR 35 1/4"
S = (.828 X DEPTH OF WALL CABINET INCLUDING DOOR) + WIDTH OF CABINET ON ANGLED WALL.
EXAMPLE: .828 X 13-7/8" = 11.4885 + 30" = 41.4885 OR 41-1/2".
YOU MAY SUBSTITUTE BASE CABINET SIZES FOR WALL CABINETS IN THIS FORMULA.

1. CABINET TOPS, BOTTOMS AND SIDES ARE 1/2" VENEER CORE PLYWOOD. TOPS AND BOTTOMS ARE DOVETAILED INTO CABINET SIDES TO PRODUCE A VERY STRONG MECHANICAL JOINT.
2. CABINET BOTTOMS ARE FLUSH WITH THE TOP EDGE OF THE BOTTOM RAIL OF FACE FRAME AND DADOED INTO THE FACE FRAME.
3. CABINET BACKS ARE 1/4" VENEER CORE PLYWOOD RABBETED INTO THE SIDES WITH 1/4" X 4" BUILDUP STRIPS ADDED TO PROVIDE A SCREW RAIL.
4. FINISHED SIDES ARE FLUSH WITH AND DADOED INTO FACE FRAME. FINISHED SIDES ARE VENEER CORE PLYWOOD WITH SLICED AND BOOKMATCHED VENEERS.
5. UNFINISHED SIDES ARE ALSO VENEER CORE PLYWOOD AND DADOED INTO FACE FRAME, HOWEVER THEY ARE SET IN 1/4" FROM FACE FRAME EDGE TO ALLOW FOR TRIMMING.
6. ALL FACE FRAMES ARE 3/4" SOLID STOCK WITH MORTISE AND TENON JOINTS. TOP RAILS ON WALL AND TALL CABINETS ARE 2 1/2" WIDE.
7. ALL SHELVES ARE 3/4" VENEER CORE WITH ADJUSTABLE PIN SYSTEM SHELF SUPPORTS.
8. DRAWERS ARE 5/8" SOLID MAPLE WITH 4 FULL SIDES AND DOVETAILED CORNERS. A SEPARATE DECORATIVE FACE IS ATTACHED TO DRAWER BOX.
 - 8A. DRAWER BOX CORNERS ARE CONSTRUCTED WITH HALF BLIND DOVETAIL JOINTS.
 - 8B. DRAWER BOTTOMS ARE 1/4" PLYWOOD DADOED INTO ALL 4 SIDES OF BOX.
 - 8C. DRAWER GUIDES ARE CONCEALED UNDERMOUNT AND SELF-CLOSING. ALSO SEE PAGE XII~15 FOR OPTIONAL GUIDES.
9. DOORS ARE 3/4" TO 1" THICK IN VARIOUS STYLES (SEE SECTION III).
10. DRAWER FRONTS ARE ALSO AVAILABLE IN VARIOUS STYLES TO MATCH OR COMPLIMENT DOORS (SEE SECTION III).
11. HINGES OF SEVERAL TYPES ARE USED FOR APPLICATIONS DICTATED BY THE DOOR CONFIGURATION CHOSEN (SEE PAGE XII~14 FOR MORE DETAILS).
12. BASE AND TALLER TOE KICKS ARE 4" HIGH AND 3" DEEP WITH A 1/2" THICK BACKER BOARD FOR FIELD APPLIED FINISHED MATERIAL.

DUE TO KOUNTRY KRAFT'S COMMITMENT TO PROVIDE A HIGH QUALITY PRODUCT AT A COMPETITIVE PRICE AND THE SOMETIMES VOLATILE RAW MATERIALS MARKET, WE RESERVE THE RIGHT TO CHANGE MATERIALS, DESIGN SPECIFICATIONS, AND PRICES WITHOUT PRIOR NOTICE.

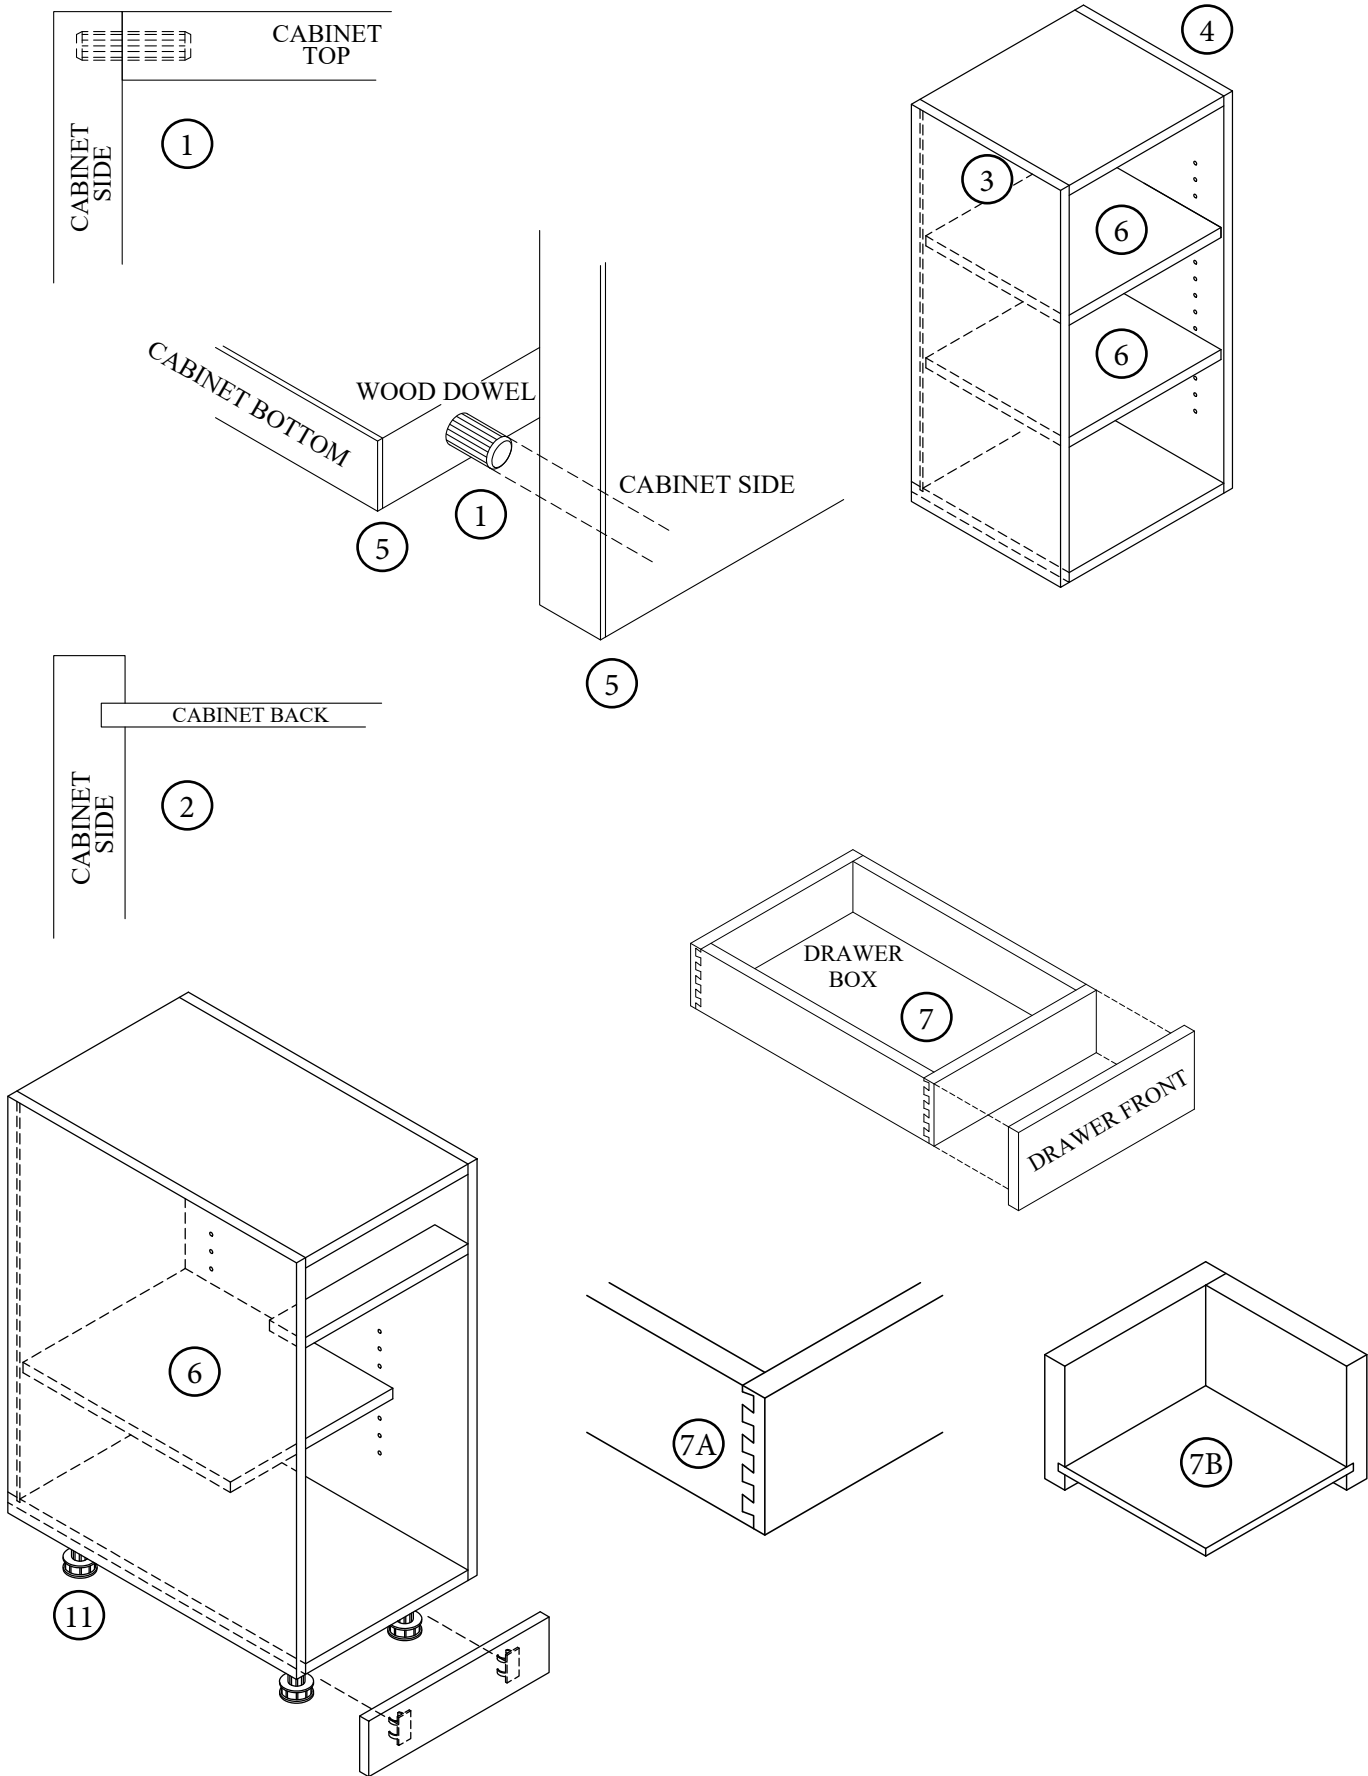

EXCELLENCE IN CUSTOM-MADE CABINETS SINCE 1959

1. WALL & TALL CABINETS WILL HAVE 2 1/2" TOP RAILS WITH THE FLOOR HELD FLUSH AT THE BOTTOM OF THE RAIL. FULL OVERLAY CABINETS WILL HAVE A 1 1/8" TOP MARGIN.
2. CABINETS GOING AGAINST A WALL WILL HAVE A 2" STILE WITH 3/4" SCRIBE; OVERALL CABINET SIZE IS NOT CHANGED.
3. WALL CABINETS GOING AGAINST A BLIND CORNER WILL HAVE A 2" CORNER STILE.
4. BLIND WALL CABINETS WILL HAVE A 3" CORNER STILE, OF WHICH 2" IS TO BE EXPOSED.
5. BASE CABINETS GOING AGAINST A BLIND CORNER CABINET WILL HAVE A 3" STILE.
6. BLIND BASE CABINETS WILL HAVE A 4" CORNER STILE, OF WHICH 3" IS TO BE EXPOSED.
7. PENCIL DRAWER UNITS HAVE 1" TOP AND BOTTOM RAILS.
8. OTHER SPECIALTY CABINETS AS SPECIFIED IN CATALOG.

DUE TO KOUNTRY KRAFT'S COMMITMENT TO PROVIDE A HIGH QUALITY PRODUCT AT A COMPETITIVE PRICE AND THE SOMETIMES VOLATILE RAW MATERIALS MARKET, WE RESERVE THE RIGHT TO CHANGE MATERIALS, DESIGN SPECIFICATIONS, AND PRICES WITHOUT PRIOR NOTICE.

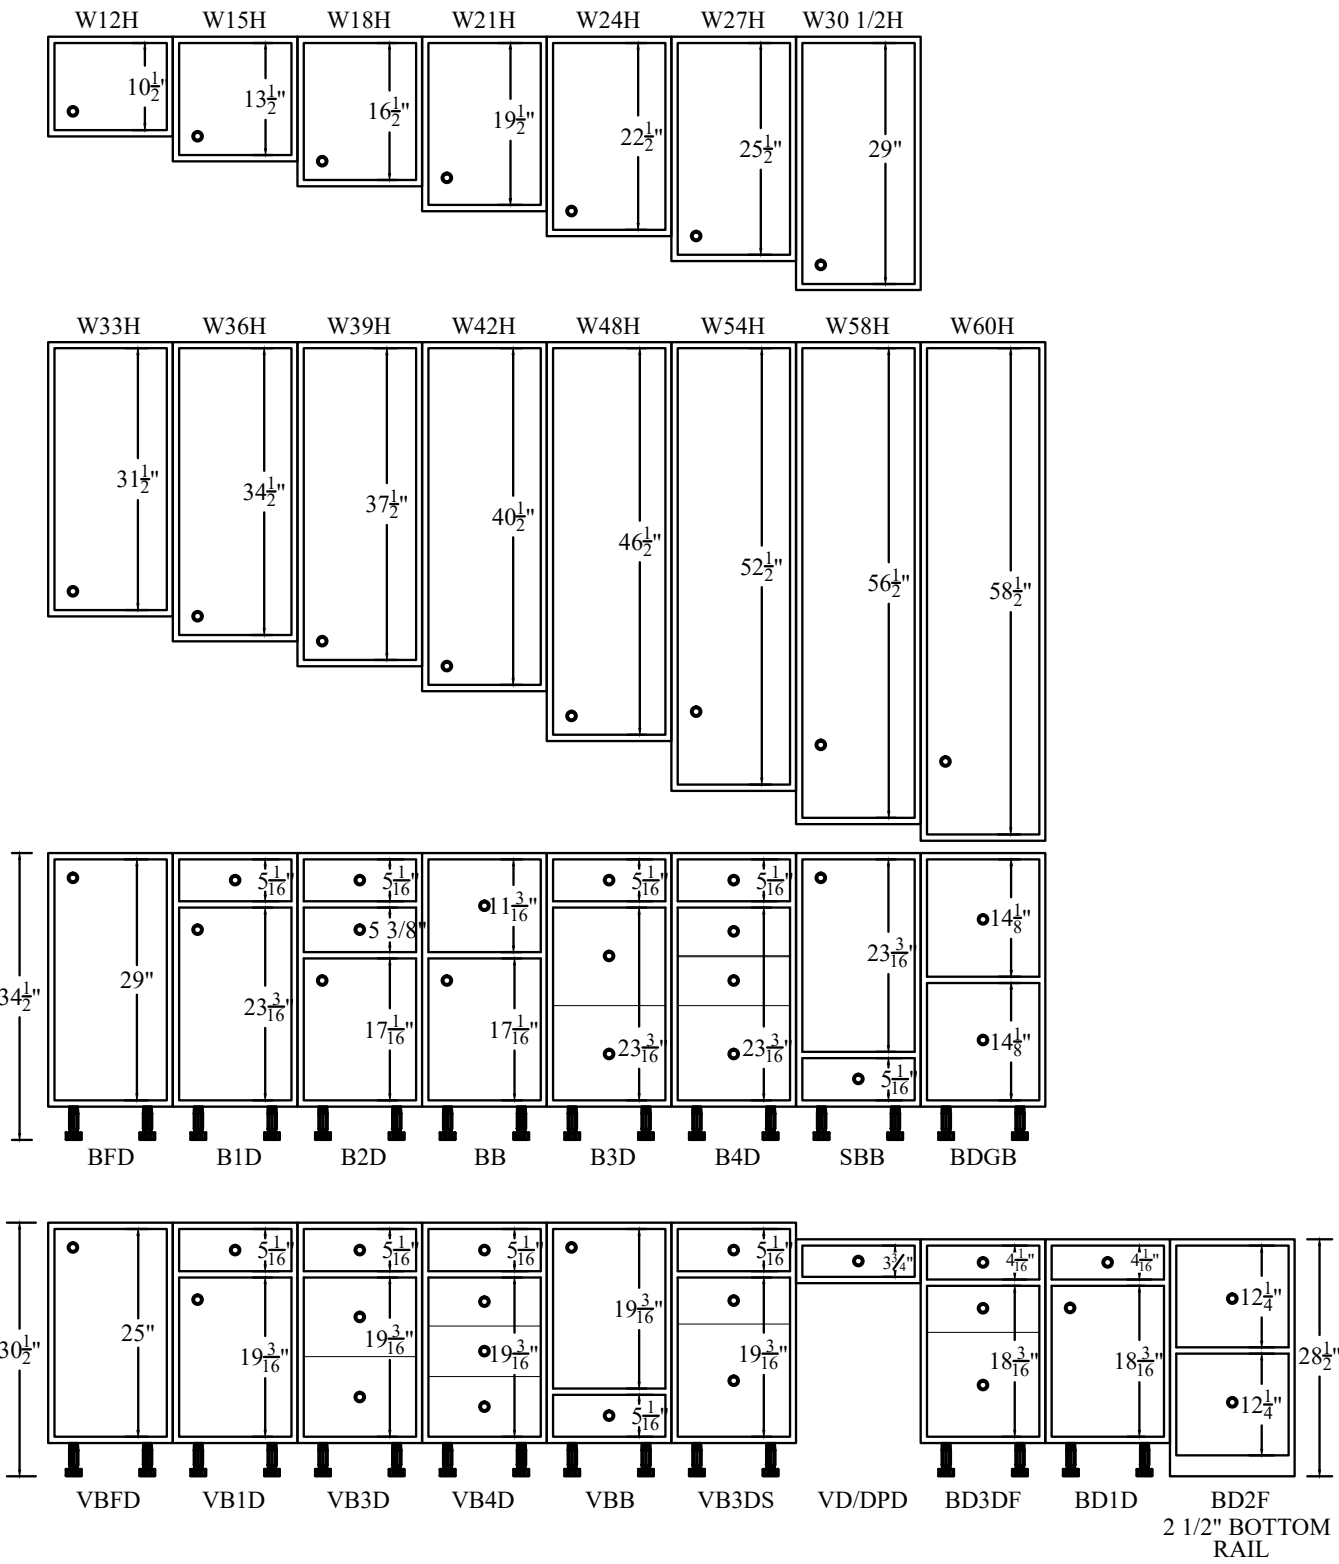

THE STANDARD MATERIAL USED IN 2001 CABINETS IS MAPLE WOODGRAIN LOW PRESSURE MELAMINE BOARD. WHITE , GRAY AND BLACK MELAMINE ARE ALSO AVAILABLE AT NO ADDITIONAL CHARGE. MUST SPECIFY IF COLOR DESIRED IS OTHER THAN WOODGRAIN.

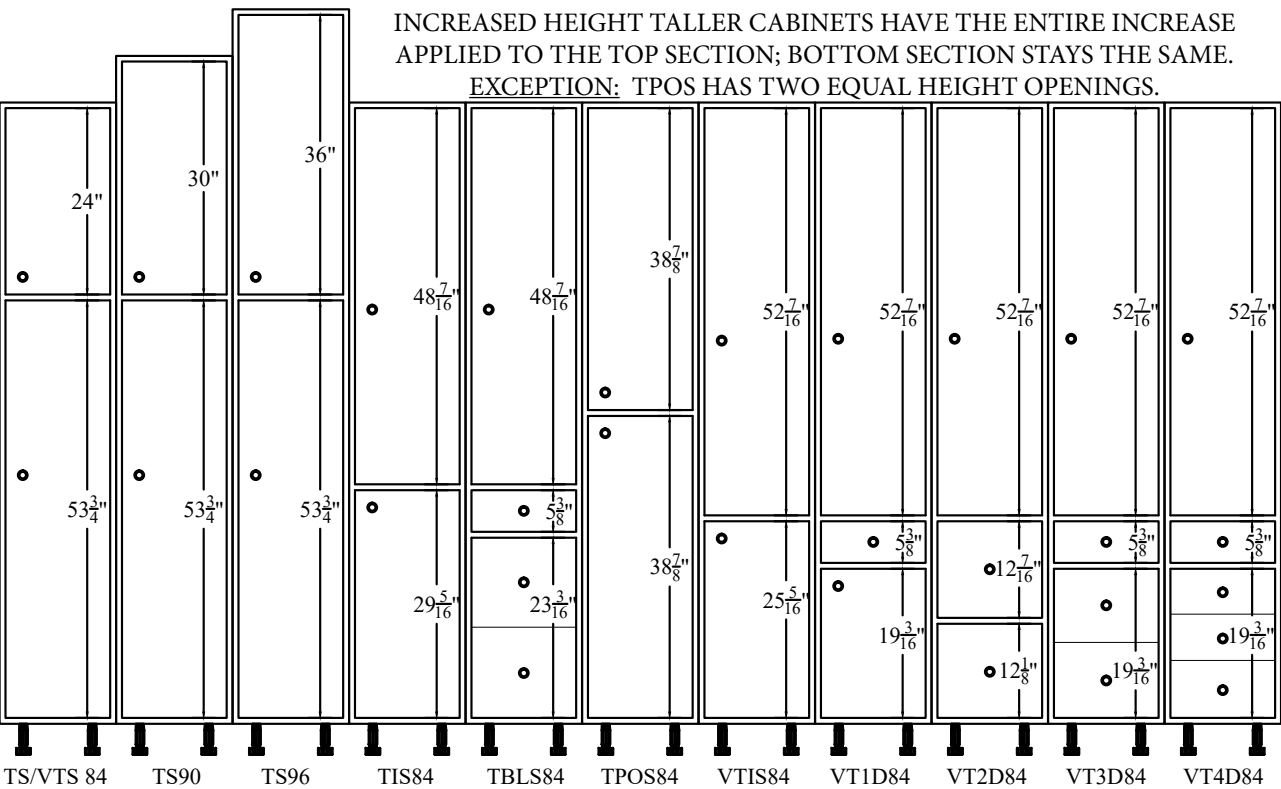

1. CABINET TOPS AND BOTTOMS ARE 3/4” MELAMINE BOARD DOWELED INTO SIDES.
2. CABINET BACKS ARE 1/4” MELAMINE BOARD DADOED INTO SIDES, TOP, AND BOTTOM.
3. FINISHED SIDES ARE 3/4” MELAMINE INTERIOR WITH HIGH PRESSURE LAMINATE EXTERIOR. A WOOD VENEER TO MATCH WOOD DOORS MAY BE ORDERED FOR FINISHED SIDES, SEE MODIFICATION SECTION FOR PRICING.
4. UNFINISHED SIDES ARE 3/4” MELAMINE BOARD DOWELED TO TOPS AND BOTTOMS.
5. FRONT EDGES OF CABINETS ARE BANDED WITH PVC IN A COMPATABLE COLOR TO DOORS.
6. ALL SHELVES ARE 3/4” LOW PRESSURE MELAMINE BOARD WITH ADJUSTABLE PIN SYSTEM SHELF SUPPORTS.
7. DRAWERS ARE 5/8” SOLID MAPLE WITH 4 FULL SIDES AND DOVETAILED CORNERS. A SEPARATE DECORATIVE FACE IS ATTACHED TO DRAWER BOX. DRAWER BOXES WILL BE FINISHED NATURAL UNLESS SPECIFIED OTHERWISE.
 - 8A. DRAWER BOX CORNERS ARE CONSTRUCTED WITH HALF BLIND DOVETAIL JOINTS.
 - 8B. DRAWER BOTTOMS ARE 1/4” PLYWOOD DADOED INTO ALL 4 SIDES OF BOX.
 - 8C. DRAWER GUIDES ARE CONCEALED UNDERMOUNT AND SELF CLOSING. SEE PAGE XII~15 FOR OPTIONAL GUIDES.
8. DOORS ARE 3/4” TO 1” THICK IN VARIOUS STYLES (SEE SECTION III).
9. DRAWER FRONTS ARE AVAILABLE IN VARIOUS STYLES TO MATCH DOORS (SEE SECTION III) .
10. HINGES ARE BLUM 110 SERIES SOFT CLOSE TYPE WITH 6 WAY ADJUSTABILITY (SEE PAGE XII~14) .
11. BASE AND TALLER CABINETS HAVE ADJUSTABLE LEGS FOR EASE OF INSTALLATION (SEE PAGE XII~17). TOE KICK IS PROVIDED IN 8’ SECTIONS THAT CLIP ONTO LEGS.

DUE TO KOUNTRY KRAFT’S COMMITMENT TO PROVIDE A HIGH QUALITY PRODUCT AT A COMPETITIVE PRICE AND THE SOMETIMES VOLATILE RAW MATERIALS MARKET, WE RESERVE THE RIGHT TO CHANGE MATERIALS, DESIGN SPECIFICATIONS, AND PRICES WITHOUT PRIOR NOTICE.

FRAMELESS LEG SET INSTALLATION

KOUNTRY KRAFT

EXCELLENCE IN CUSTOM-MADE CABINETRY SINCE 1959

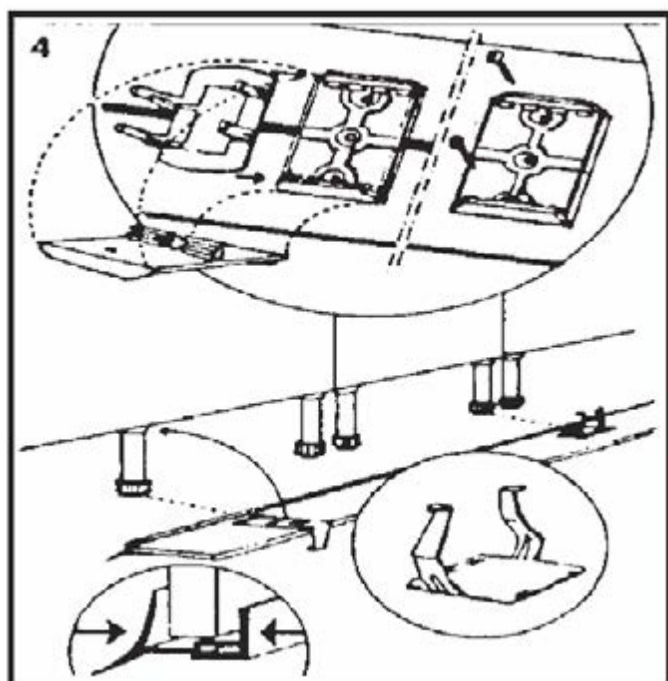

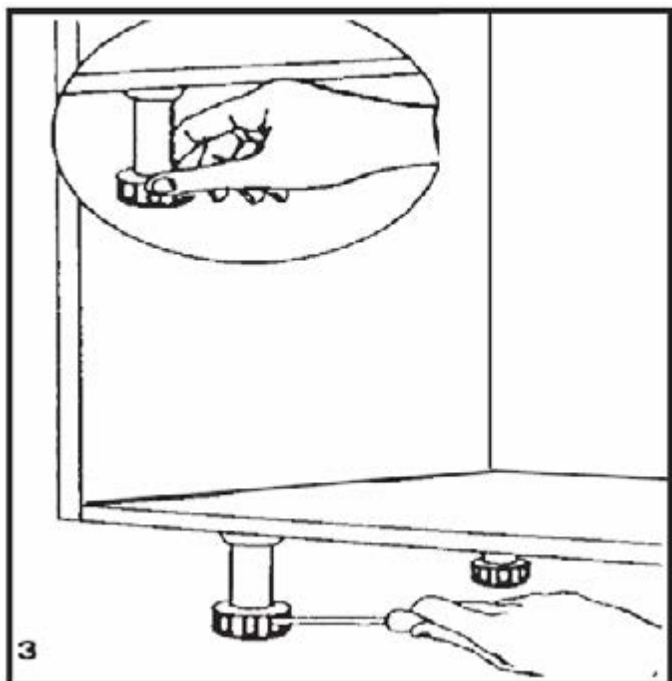

1. CABINET LEVELER LEGS ARE SHIPPED IN 3 SIMPLE PIECES. THE SOCKET AND HOLLOW SCREW HOLDS THE LEG IN PLACE AND ACTS AS A FLOOR GLIDE FOR SHIPPING WHILE PROTECTING THE CORNERS FROM DAMAGE.

2. ASSEMBLE LEGS AND PUSH INTO SOCKETS THAT HAVE BEEN INSTALLED AT FACTORY.

3. TURN THE FOOT TO ADJUST THE LEG HEIGHT FROM 3 3/4" TO 5". LONGER LEG SETS ARE AVAILABLE IF SPECIFIED AS "6" LEG SETS". THE LARGER LEG SETS ARE ADJUSTABLE FROM 4 1/2" - 6 3/4".

4. ATTACH CLIPS TO THE BACK OF THE TOE KICK PANEL AND SNAP ONTO THE LEGS.

THE HARDWARE PRICES SHOWN ARE USED WHEN HARDWARE IS PURCHASED WITH CABINETRY.
WHEN HARDWARE IS PURCHASED SEPARATELY ADD \$8.00 TO THE PRICE SHOWN.

- ORDER HARDWARE USING THE **PART NUMBERS** AS LISTED ON THE PRICING PAGES. THE FIRST TWO LETTERS OF THE ITEM NUMBER REFLECT THE CODE FOR THE HARDWARE MANUFACTURER, **INCLUDE THIS CODE WITH YOUR ORDER.**
- NO CREDIT WILL BE GIVEN IF HARDWARE SELECTION IS "NONE".
- KOUNTRY KRAFT WILL NOT INSTALL CUSTOMER SUPPLIED HARDWARE. HARDWARE SUPPLIED BY CUSTOMER MUST BE INSTALLED AT THE JOBSITE.
- PRICING LISTED IS FOR HARDWARE WHEN IT IS PURCHASED WITH CABINETRY. ADD \$15.00 PER ITEM IF PURCHASED WITHOUT CABINETRY. HARDWARE ORDERED AFTER CABINETRY HAS BEEN DELIVERED WILL BE SUBJECT TO THESE CHARGES. EXAMPLE: HARDWARE WITH A LIST PRICE OF \$10.00 WILL BE PRICED AT \$25.00 WHEN PURCHASED WITHOUT CABINETRY. HARDWARE LISTED AT N/C (NO CHARGE) WILL BE PRICED AT \$15.00 WHEN PURCHASED WITHOUT CABINETRY.
- ITEMS LISTED AS N/C ARE NO CHARGE ONLY IN THE FINISH LISTED.
- LOCATION OF HARDWARE ON DOORS AND DRAWERS MUST BE SPECIFIED. EITHER SPECIFY LOCATION AS "STANDARD" (WE WILL MOUNT AT OUR STANDARD LOCATION) OR GIVE DETAIL OF DESIRED LOCATION.
- THERE WILL NOT BE A DISCOUNT FOR BACKPLATES NOT USED WHERE COMBINATIONS ARE SHOWN ON BOARDS EXCEPT WHEN THE BACKPLATE IS PRICED SEPARATELY.

KOUNTRY KRAFT

EXCELLENCE IN CUSTOM-MADE CABINETRY SINCE 1959

Lighting Introduction

Tell us about the Project

Step by Step Guide

- 1) Pick your Lights!
- 2) How will the lights SWITCH on?
- 3) Which driver is right for you? Where is it?
- 4) Choose the appropriate wires. Lights, switches, distributors, etc.
- 5) Detail out where the lights are within the cabinet
- 6) Show where you want the wires to run through the cabinet

Lighting Parts Form

*Please mark which parts you would like for your project.

*Writing the item number for your part is important to the process!

Lights

- ☐ Strip Lights
- ☐ Puck Lights
- ☐ Silicone Strip Lights
- ☐ Other

Item #?

Things to note

Wattage Calculation
Color difference behind different lenses

Angle of light hitting the space

Profiles

*For Strip Lights only

- ☐ 1103 (Recessed)
- ☐ 2103 (Surface)
- ☐ Diffuser (lens)

Item #?

Things to note

Size of lights vs profile
Depth of material needed to recess into
Color of lights will change behind lenses
The above profiles & lens are 11mm wide

Housing

*For Puck Lights only

- ☐ Square
- ☐ Round
- ☐ Recessed
- ☐ Surface Mounted

Item #?

Things to note

Pick a Style & Color scheme
Needs a special lead

Leads

- ☐ LED Strip Lead
- ☐ Puck Lead (modular)
- ☐ Interconnecting
- ☐ Switch Lead
- ☐ Extension Lead
- ☐ In-Wall Leads

Item #?

Switches

- ☐ Sensor Switch
- ☐ Mechanical Switch
- ☐ Magnetic Reed Switch
- ☐ Electrician Wired Wall Switch

Item #?

Things to note

Your switch choice depends on your Power Supply choice.
Can be Recessed or Surface mounted.
Wire connection between driver & switch.

Distributors

- ☐ Dist. with Switch Port
- ☐ Dist. without Switch Port
- ☐ Dist. with Multi-Switch Ports
- ☐ Dist. with Multi-White Control
- ☐ Dist. for Hardwired Applications

Item #?

Things to note

Connection between Power & lights
If using a Hardwired Driver, you will NEED the Distributing Block
If using a "Plug&Play" Driver, determine if you are using a switch or not

Drivers

- ☐ "Plug & Play" Driver - Constant Voltage - (3) Different Wattages
- ☐ Hardwired Driver - Dimmable

Item #?

Things to note

Hardware driver should only be installed by an Electrician
Calculate Wattage to determine size of driver
Need to know where the driver will be located

LX5

LED silicone strip lights

Monochrome, 8 mm (5/16"), 24 V

Häfele Loox5 LED 3043/3046

LED 3043/3046

Equipped with high-quality Samsung® LEDs

- > Dimmable: Yes
- > Material: Plastic
- > Color: White
- > Width: Strip: 8 mm (5/16")
Silicone sleeve: 10 mm (3/8")
- > Height: Strip: 1.3 mm (1/16")
Silicone sleeve: 4.8 mm (3/16")
- > Life time L80/B10: >50,000 h
- > Energy efficiency class: A+
- > Degree of protection: IP44 / IP20 optional
- > Mounting: Self-adhesive
- > Supplied with: 1 roll

Illuminance value in lx applies to 1 m (39 3/8") strip length:

2700 K	3000 K	4000 K	5000 K	120°	
920 lx	960 lx	975 lx	1010 lx		250 mm (9 13/16")
390 lx	410 lx	415 lx	425 lx		500 mm (19 11/16")
215 lx	225 lx	230 lx	235 lx		750 mm (29 1/2")
135 lx	140 lx	145 lx	145 lx		1000 mm (39 3/8")

LED 3043

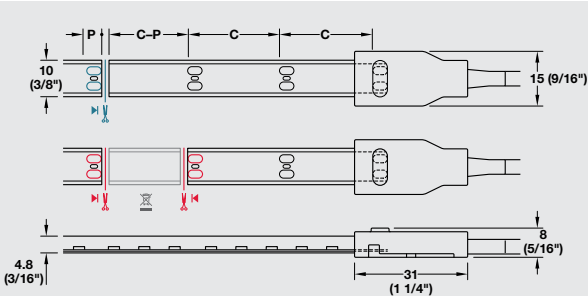

2700 K	3000 K	4000 K	5000 K	120°	
1855 lx	1895 lx	1960 lx	2020 lx		250 mm (9 13/16")
790 lx	805 lx	840 lx	860 lx		500 mm (19 11/16")
435 lx	445 lx	465 lx	475 lx		750 mm (29 1/2")
270 lx	275 lx	290 lx	295 lx		1000 mm (39 3/8")

LED 3046

Minimal color deviations due to silicone sleeve:

Color temperature of the LED	Color deviation
2700 K	-30 K
3000 K	-40 K
4000 K	-50 K
5000 K	-80 K

Order reference:
Please order lead separately, see page 4.

- Cut LED strip light to length (one contact side remains on the remainder piece; reusable)
- Connect LED strip lights (two contact sides required)

C = section length
P = length of contact surface

- > The light emits from the edge of the ribbon, no LED dots visible
- > Designed for recessed installation in a 4 mm wide groove
- > Mounts flush with the panel
- > Flexible silicone allows for curved applications (radius min. 30 mm (1 3/16"))

- > Dimmable: Yes
- > Material: Silicone
- > Finish: Matt white
- > Width: Strip: 8 mm (5/16")
Silicone sleeve 10 mm (3/8")
- > Height: Silicone sleeve 4 mm (5/32")
- > Routing depth: 10 mm (3/8")
- > Routing width: 4 mm (5/32")
- > Radius min.: 30 mm (1 3/16")
- > Life time L80/B10: > 50,000 h
- > Color rendering index R9: > 50
- > Color rendering index Ra: > 90
- > Energy efficiency class: A+
- > Weighted energy consumption: 10.56 kWh / 1000 h
- > Degree of protection: IP44
- > Max. strip length (visual): 3.0 m
- > Mounting: For embedding in routed channel
- > Supplied with: 1 LED strip with 200 mmm leads soldered on each end. Strip can be divided into two sections.

Loox 24 V drivers see pages 32–33

Dimensional data not binding. Dimensions in mm, inches are approximate. We reserve the right to alter specifications without notice.

HÄFELE

LED strip lights

Flexible edge lit silicone strip light, 8 mm (5/16"), 24 V

Häfele Loox5 LED 3099

Voltage	Number of	Color temperature	Wattage	Luminous flux	Luminous efficacy	Section length C	Delivery length
V	LEDs/m	K	W/m	lm/m	lm/W		3 m (118 1/8")
5 24V	LED 3099						
	120	2700	9.6	500	52	50 (2")	833.75.260
		3000	9.6	520	54	50 (2")	833.75.261
		4000	9.6	540	56	50 (2")	833.75.262
		5000	9.6	540	56	50 (2")	833.75.263

Note
A 200 mm lead cable (3.5A / 20 AWG) is soldered on each end of the roll.

Note
Maximum visual strip length applies for an imperceptible drop in luminous flux of max. 30%.
Please note: A strip section with a new power supply that follows immediately is noticeably brighter.

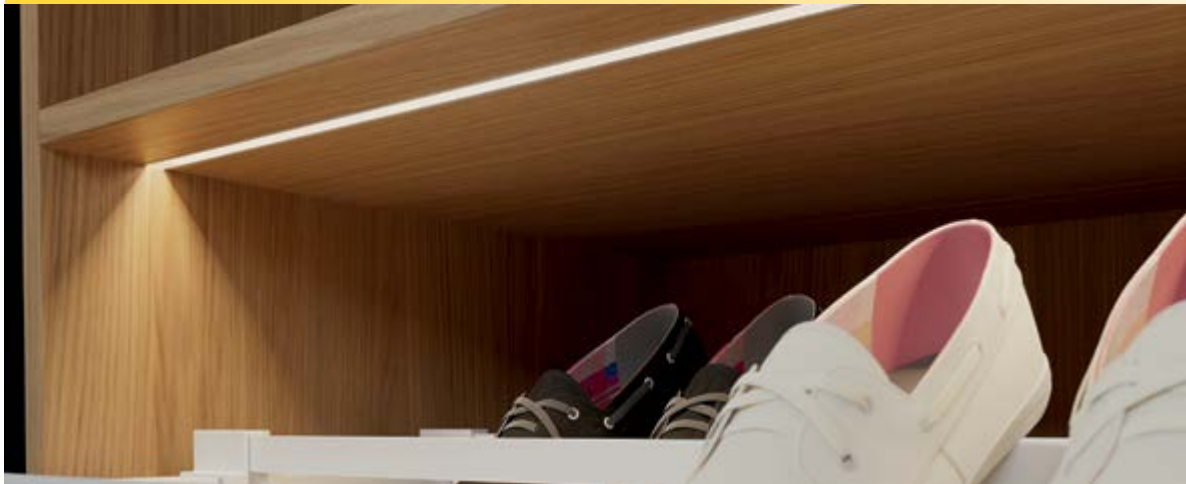

Dimensional data not binding. Dimensions in mm, inches are approximate. We reserve the right to alter specifications without notice.

HÄFELE

Diffusers and lenses

Häfele Loox5 Diffusers for profiles - for 1103 and 2103

Dimensions

- > Material: Plastic
- > Length: 2500 mm (98 7/16")
- > Supplied with: 1 diffuser

Width	Transmittance		
	transparent ~90 %	white opal 70-80 %	black ~20 %
11 (7/16")	833.95.807	833.95.805	833.95.809

- ! The white diffuser creates a uniform light. The LED points are invisible from 120 LEDs/m. When using the black diffuser, LED points may be visible. LED points are always visible when the transparent diffuser is used.

LX5

Recess/surface mounted lights

Modular monochrome, drill hole Ø: 58 mm (2 5/16"), 24 V

Häfele Loox5 3092

Equipped with high-quality Samsung® LEDs

- > Dimmable: Yes
- > Material: Aluminum
- > Energy efficiency class: A+
- > Degree of protection: IP44 as recess mounted light
IP20 as surface mounted light
- > Mounting: For mounting in drilled hole,
for clamp or screw fixing
- > Drill hole Ø: 58 mm (2 5/16")
- > Supplied with: 1 light module

Note
The IP44 degree of protection is reduced to IP20 when surface mounting or recess mounting with through hole.

Order reference
Please order lead and housing separately, see page 12.

Loox 24 V drivers see pages 32–33

Dimensional data not binding. Dimensions in mm, inches are approximate. We reserve the right to alter specifications without notice.

Sensor switches

Häfele Loox sensor switch, modular - touch-free, soft on/off switching

TOUCH-FREE

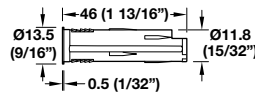

- > Material/Color: Plastic, silver colored
- > Degree of protection: IP20
- > Sensor range: 0–80 mm (0–3 1/8")
- > Power consumption: ≤0.3 W
- > Drill hole Ø: 12 mm (1/2")
- > Supplied with: 1 switch

Item No.
833.89.127

➕ Please order lead with snap-in connector for modular switches driver separately. Length 2000 mm (78 3/4"); Item No. 833.89.142, see page 16.

⚠ On/off state is stored without the need for power supply (memory function).

Häfele Loox door sensor switch, modular - soft on/off switching

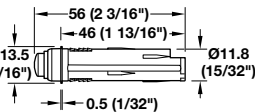

- > Material/Color: Plastic, silver colored
- > Degree of protection: IP20
- > Sensor range: 0–100 mm (0–4")
- > Power consumption: ≤0.3 W
- > Drill hole Ø: 12 mm (1/2")
- > Supplied with: 1 switch

Item No.
833.89.128

➕ Please order lead with snap-in connector for modular switches driver separately. Length 2000 mm (78 3/4"); Item No. 833.89.142, see page 16.

Häfele Loox motion detector, modular - automatic on/off switching

- > Material/Color: Plastic, silver colored
- > Degree of protection: IP20
- > Sensor range: 0–3000 mm (0–118")
- > Sensor angle: 120 °
- > Power consumption: ≤0.1 W
- > Drill hole Ø: 12 mm (1/2")
- > Supplied with: 1 motion detector

Delay time	Item No.
30 sec.	833.89.129
320 sec.	833.89.148

➕ Please order lead with snap-in connector for modular switches driver separately. Length 2000 mm (78 3/4"); Item No. 833.89.142, see page 16.

Magnetic reed switches

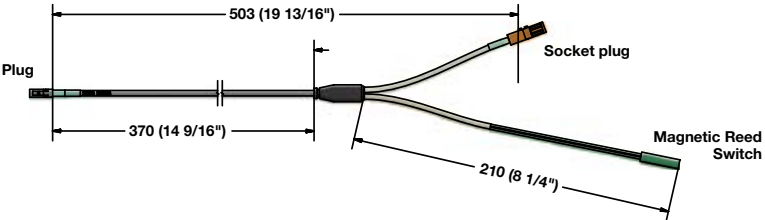

For interior cabinet lighting

Magnetic reed switch with in-line lead cable

- > Material/Finish: Plastic, black
- > Area of application: Interior cabinet lighting
- > Function: Light turns on when cabinet door is opened; when door closes (magnet and reed switch are <2" apart), the lights will turn off.
- > Length: 306 mm (12")
- > Supplied with: 1 magnetic reed switch, 1 plug, 1 socket plug, 1 magnet

Voltage	Max. connected wattage W	Item No.
24 V	90	833.05.855

Housing for magnetic reed switch

- > Material: Plastic
- > Area of application: For mounting magnetic reed switch and cables
- > Length: 500 mm (59 1/16")
- > Supplied with: 1 reed housing

Color	Item No.
Anthracite	833.02.674
Beige	833.02.675
Gray	833.02.676
White	833.02.677

Dimensional data not binding. Dimensions in mm, inches are approximate. We reserve the right to alter specifications without notice.

LX5

Distributors

Häfele Loox5 box to box 6-way distributor

Plug connection box to box

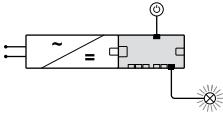

> The connection of the distributors with the driver can be done via a box to box plug-in connection or via an extension lead.
Any number of distributors can be connected to the driver. Observe maximum wattage!

Häfele Loox5 box to box 6-way distributor - with switching function

1 switch controls all output ports

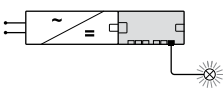

- > Material/Color: Plastic, black
- > L x W x H: 120 x 50 x 16 mm (4 3/4" x 2" x 5/8")
- > Number of connections: 1 x input port with box to box plug
1 x output port with box to box socket
1 x input port switch socket
6 x output ports
- > Supplied with: 1 distributor

Voltage	Max. connected wattage W	Item No.
5 24V	90	833.77.833

Loox5 distributor with Loox output ports

Voltage	Max. connected wattage W	Item No.
24V	84	833.77.834

Häfele Loox5 box to box 6-way distributor - without switching function

- > Material/Color: Plastic, black
- > L x W x H: 120 x 50 x 16 mm (4 3/4" x 2" x 5/8")
- > Number of connections: 1 x input port with box to box plug
1 x output port with box to box socket
6 x output ports
- > Supplied with: 1 distributor

Voltage	Max. connected wattage W	Item No.
5 24V	90	833.77.832

Häfele Loox5 6-way distributor - without switching function

Can also be connected to 6-way distributor.

- > Material/Color: Plastic, black
- > L x W x H: 70 x 30 x 14 mm (2 3/4" x 1 3/16" x 9/16")
- > Number of connections: 1 x input port with box to box plug
1 x output port with box to box socket
6 x output ports
- > Supplied with: 1 distributor

Voltage	Max. connected wattage W	Item No.
5 24V	90	833.77.839

Dimensional data not binding. Dimensions in mm, inches are approximate. We reserve the right to alter specifications without notice.

HÄFELE

Distributors

Häfele Loox5 6-way distributor with multi-switching function

- > Multi-switching function for up to 3 switches, saving space and cost
- > 3 switching mode options
- > Permanent soft on/off function, regardless of the switch that is used

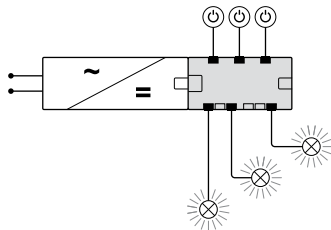

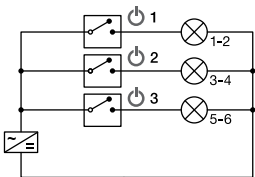

- > Area of application: For switching on/off and dimming (0–100%)
- > Material/Color: Plastic, black
- > L x W x H: 120 x 50 x 16 mm (4 3/4" x 2" x 5/8")
- > Number of connections: 1 x input port with box to box plug
1 x output port with box to box socket
3 x input switch sockets
6 x output ports
- > Supplied with: 1 distributor

Voltage	Max. connected wattage W	Item No.
5 24V	90	833.95.829

3 modes of operation

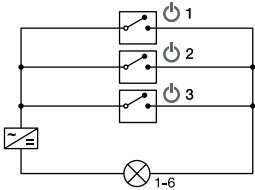

Parallel (red indicator light)

Switch 1 = controls outputs 1 and 2
Switch 2 = controls outputs 3 and 4
Switch 3 = controls outputs 5 and 6

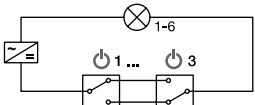

No cross (blue indicator light)

Any of the three switches can turn the lights on.
To turn lights off, all switches must be turned off.

Cross (green indicator light)

Any of the 3 switches can turn on/off the lights.

Dimensional data not binding. Dimensions in mm, inches are approximate. We reserve the right to alter specifications without notice.

LX5

Distributors

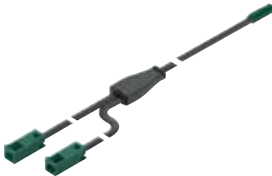

6-way distributor - with bare wire ends for hardwired applications

- > Area of Application: Add to any hardwired dimmable driver to turn output into modular connectors for Loox lights
- > Material/Color: Plastic, black
- > L x W x H: 70 x 30 x 16 mm (2 3/4" x 1 3/16" x 9/16")
- > Type of cable: 18 AWG wires are marked for polarity

HÄFELE

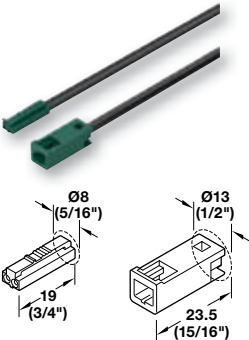

Extension leads

Häfele Loox5 extension leads

! Maximum lead length from the Loox5 driver to the device is 10,000 mm (393 11/16").

Long cable lengths in combination with large loads (strip light lengths) can result in voltage losses in the cable. These lead to visible loss of brightness in the lights. The illuminance listed with the lights has been determined with the rated output voltage of the driver.

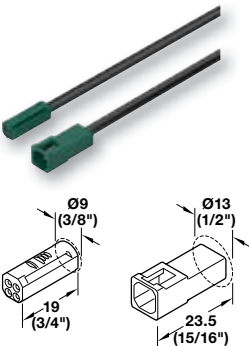

Häfele Loox5 extension leads monochrome

- > Area of application: For monochrome lights and other 2-wire devices and distributors
- > Material: Plastic
- > Current carrying capacity: Max. 5 A
- > Type of cable: 2-wire 18 AWG

HÄFELE

Leads

For LED strip light monochrome, 8 mm (5/16")

ALSO
FOR
CONSTANT
CURRENT
STRIP
LIGHTS

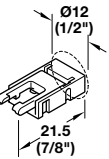

Häfele Loox5 lead - for LED strip light monochrome, 8 mm (5/16")

- > Current carrying capacity: Max. 5 A
- > Type of cable: 2-wire 18 AWG
- > Width: Clip 10 mm (3/8")
- > Drill hole Ø: Plug 8 mm (5/16")
- > Supplied with: 1 lead plug/clip

Voltage	Length	Item No.
5 24V	100 (4")	833.75.743
	500 (19 11/16")	833.95.707
	2000 (78 3/4")	833.95.706

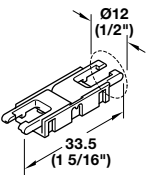

Häfele Loox5 interconnecting lead - for LED strip light monochrome, 8 mm (5/16")

- > Current carrying capacity: Max. 5 A
- > Type of cable: 2-wire 18 AWG
- > Width: Clip 10 mm (3/8")
- > Drill hole Ø: Clip 12 mm (1/2")
- > Supplied with: 1 lead clip/clip

Length	Item No.
50 (2")	833.89.191
500 (19 11/16")	833.89.192
2000 (78 3/4")	833.89.193

Häfele Loox5 clip connector - for LED strip light monochrome, 8 mm (5/16")

- > Current carrying capacity: Max. 5 A
- > Width: Clip 10 mm (3/8")
- > Drill hole Ø: Clip 12 mm (1/2")
- > Length: 33.5 mm (1 5/16")
- > Supplied with: 10 pcs.

Item No.
833.89.206

Häfele Loox5 corner connector - for LED strip light monochrome, 8 mm (5/16")

- > Current carrying capacity: Max. 5 A
- > L x W: 24 x 24 mm (15/16" x 15/16")
- > Supplied with: 10 pcs.

Item No.
833.89.187

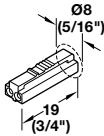

Dimensional data not binding. Dimensions in mm, inches are approximate. We reserve the right to alter specifications without notice.

LX5

Leads

For LED silicone strip light monochrome, 8 mm (5/16")

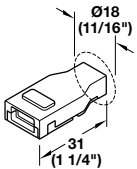

Häfele IP44 Loox5 lead - for LED silicone strip light monochrome, 8 mm (5/16")

- > Current carrying capacity: Max. 5 A
- > Type of cable: 2-wire 18 AWG
- > Width: Silicone plug 15 mm (9/16")
- > Drill hole Ø: Plug 8 mm (5/16")
- > Length: 2000 mm (78 3/4")
- > Supplied with: 1 lead plug/clip

Voltage	Item No.
5 24V	833.95.709

Häfele IP44 Loox5 interconnecting lead - for LED silicone strip light monochrome, 8 mm (5/16")

- > Current carrying capacity: Max. 5 A
- > Type of cable: 2-wire 18 AWG
- > Width: Clip 15 mm (9/16")
- > Drill hole Ø: Clamp 18 mm (11/16")
- > Supplied with: 1 lead clip/clip

Length	Item No.
50 (2")	833.89.203
500 (19 11/16")	833.89.204
2000 (78 3/4")	833.89.205

The leads and clips on page 28 can be used to make IP20 connections for the monochrome 8 mm (5/16") silicon strip.

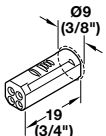

Dimensional data not binding. Dimensions in mm, inches are approximate. We reserve the right to alter specifications without notice.

HÄFELE

Leads

For LED strip light multi-white, 8 mm (5/16")

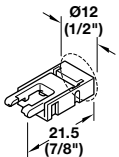

Häfele Loox5 lead - for LED strip light multi-white, 8 mm (5/16")

- > Current carrying capacity: Max. 3.5 A
- > Type of cable: 3-wire 20 AWG
- > Width: Clip 10 mm (3/8")
- > Drill hole Ø: Plug 9 mm (3/8")
- > Length: 2000 mm (78 3/4")
- > Supplied with: 1 lead plug/clip

Voltage	Item No.
5 24V	833.95.708

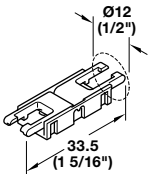

Häfele Loox5 interconnecting lead - for LED strip light multi-white, 8 mm (5/16")

- > Current carrying capacity: Max. 3.5 A
- > Type of cable: 3-wire 20 AWG
- > Width: Clip 10 mm (3/8")
- > Drill hole Ø: Clip 12 mm (1/2")
- > Supplied with: 1 lead clip/clip

Length	Item No.
50 (2")	833.89.197
500 (19 11/16")	833.89.198
2000 (78 3/4")	833.89.199

Häfele Loox5 clip connector - for LED strip light multi-white, 8 mm (5/16")

- > Current carrying capacity: Max. 3.5 A
- > Width: Clip 10 mm (3/8")
- > Drill hole Ø: Clip 12 mm (1/2")
- > Length: 33.5 mm (1 5/16")
- > Supplied with: 10 pcs.

Item No.
833.89.208

Häfele Loox5 corner connector - for LED strip light multi-white, 8 mm (5/16")

- > Current carrying capacity: Max. 3.5 A
- > L x W: 24 x 24 mm (15/16" x 15/16")
- > Supplied with: 10 pcs.

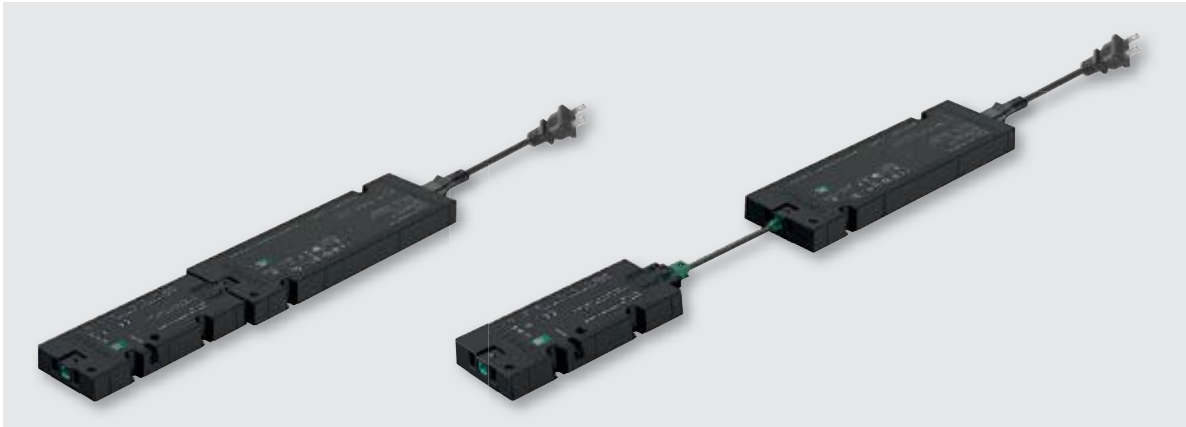

Item No.
833.89.188

Dimensional data not binding. Dimensions in mm, inches are approximate. We reserve the right to alter specifications without notice.

L⁵X5

Supplying

Central or decentralized supply

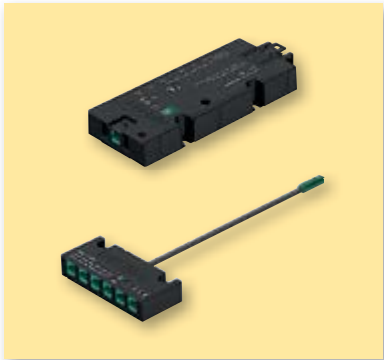

Central and compact
Driver with 6-way distributor via box to box plug-in connection for compact dimensions.

Decentralized
Driver at the entry point of a given socket position. Decentralized 6-way distributor via cable connection.

3-level control concept

Loox5 specializes the tasks: on the one hand, professional drivers with top performance in terms of energy efficiency, life time, overload protection, and rectification, and on the other hand, the 6-way distributor with a 3-level control concept that can be combined as desired:

Level 1
Distributor without switching function

Level 2
Distributor with switching function

Level 3
Distributor with switching function and Bluetooth® chip for the network control in the Häfele Connect Mesh

Dimensional data not binding. Dimensions in mm, inches are approximate. We reserve the right to alter specifications without notice.

HÄFELE

Drivers

24 V

Häfele Loox5 driver constant voltage 24 V

EXTRA SLIM

- > Version: With overload protection
- > Material/Color: Plastic, black
- > Degree of protection: IP20
- > Input voltage: 100–240 V~; 50–60 Hz
- > Output voltage: DC 24 V
- > Number of connections: 1x socket Loox5 24 V
- > Life time: >70,000 hours
- > Safety: Class 2
- > Supplied with: 1 driver with mounting accessories
1 US power cord

5 ^{24V}	Output power	Output current	Standby power consumpt.	L x W x H	Item No.
	W	A	W		
1	20	0.83	≤0.2 W	140 x 50 x 16 (5 1/2" x 2" x 5/8")	833.95.008
2	40	1.67	≤0.3 W	191 x 60 x 16 (7 1/2" x 2 3/8" x 5/8")	833.95.010
3	90	3.75	≤0.3 W	316 x 70 x 16 (12 7/16" x 2 3/4" x 5/8")	833.95.011

! Ambient temperature –25 °C to +45 °C
Ensure that there is a sufficient air supply and circulation at the mounting location.

! Maximum lead length from the Loox5 driver to the device is 10,000 mm (393 11/16"). Long cable lengths in combination with large loads (strip light lengths) can result in voltage losses in the cable. These lead to visible loss of brightness in the lights. The illuminance listed with the lights has been determined with the rated output voltage of the driver. (12 V or 24 V).
