Kountry Kraft Introduces an Innovative New Line - Textural Cabinetry™

April 29, 2016 – Newmanstown, PA – Kountry Kraft custom cabinetry introduces Textural Cabinetry™, an innovative line of cabinetry with textured laminate panels. The new custom line offers a choice of 22 textured options in three door styles. The realistic wood grain panels complement smooth surfaces such as stainless steel kitchen appliances.

Roger Yiengst, Sales Manager at Kountry Kraft states “We are excited about this new line that provides designers with an authentic wood look, the consistency of laminate and two price points to fit any budget.” Textural Cabinetry door panels can be crafted with matching cabinet boxes front to back or select a complimentary laminate style to enhance the door panel. For a more budget minded cabinet, select the Textural Cabinetry door panels with a melamine cabinet box.

Shown in the photos at right are six examples of the twenty-two textured panels offered, each stylistically different to provide a range of design solutions.

Kountry Kraft is known for their legacy of craftsmanship and consistent eight week lead time. This new line of cabinetry can also be ordered with linear custom range hoods and select millwork products. Visit www.KountryKraft.com for more details.

About Kountry Kraft
